

The Airbnb cleaning handbook

Your step-by-step guide to Airbnb's
enhanced cleaning protocol

An important note about this handbook

Airbnb developed this cleaning protocol based on WHO and CDC guidance and in consultation with experts in the fields of sanitization and medicine, including then-former U.S. Surgeon General Dr. Vivek Murthy. The protocol is also endorsed by industry leaders like Diversey. It sets out helpful tips and best practices and sets the baseline standard you are expected to meet as a participant in the program. You should be aware that local governments around the world are issuing health and safety guidelines which may include mandatory cleaning protocols. You should check local guidelines and rules that may have been issued by your local government or health authority, and ensure that you also comply with these.

This book is not provided with any guarantee, whether of comprehensiveness, efficacy, or otherwise. We will continue to update this handbook periodically, and will notify you so that you can maintain the cleaning protocol. Use of this handbook is subject to our [Terms](#).

If you decide to follow the protocol, you acknowledge that you may need to take additional steps to protect yourselves, your teams, and your guests and that you or your guests may still come into contact with and/or contract a communicable disease, including COVID-19, even if you follow the steps in this handbook. Airbnb is not responsible for any injuries or disease resulting from following these guidelines.

Every space on Airbnb is different and we understand that some have unique features that may require specialized cleaning or sanitizing. If a guest has access to a space that is not covered by this handbook, apply the principles outlined in this handbook when cleaning and sanitizing that space. If a guest must pass through an area of the building that you're not able to clean to access your listing, we recommend that you let them know what areas you could not clean so they can take appropriate precautions.

This handbook is protected by copyright and is the property of Airbnb. Any unauthorized reproduction of part, or all, of the handbook beyond its intended purpose of providing hosts on Airbnb with helpful practices to clean and sanitize their listings is strictly prohibited.

Cleanliness has always been top of mind for hosts on Airbnb, and we know that it's fundamental to a great guest experience. Many hosts have come to us with questions about cleaning – what supplies to use, how to help keep yourself and your guests safe, and how to elevate your cleaning practices.

We've developed a cleaning protocol, created specifically for hosts. Here's what you can expect:

Developed with experts

Airbnb developed the cleaning protocol outlined in this handbook with guidance from experts such as then-former U.S. Surgeon General Dr. Vivek Murthy.

Step-by-step checklists and education

Find specific instructions on how to clean, what to sanitize, and what supplies to have on hand. We'll be rolling out additional resources, so you feel confident providing a deeper clean, every time.

How to use this handbook

This document provides a comprehensive overview of the Airbnb cleaning protocol, and it's organized into two main sections:

Part one: Get to know the five-step cleaning process

[Cleaning vs. sanitizing](#) →

[Five steps to enhanced clean](#) →

[A detailed breakdown of the process](#) →

[Tips to help reduce the risk of cross-contamination](#) →

Part two: Cleaning checklists

[Supplies to have on hand](#) →

[Prepare for cleaning](#) →

[Room-by-room checklists](#) →

QUICK TIP

To get started, read through the entire handbook, then reference the relevant sections as you clean. If you work with a cleaning professional, please make sure they follow these guidelines.

Endorsed by

Hosting during COVID-19

In addition to cleaning and sanitizing your listing according to the cleaning protocol, there are other ways to help prevent the spread of COVID-19.

Practice social distancing

When required by local laws or guidelines, practice social distancing with guests, and encourage them to do the same. In lieu of handshakes or hugging, consider alternative no-contact greetings. Check your local guidelines for social distancing requirements that may be applicable to your listing.

You can help encourage social distancing by offering self check-in and checkout. Consider installing a key lockbox or smart lock with a keypad, and remember to update your listing to [add self check-in instructions](#). You can also minimize person-to-person contact by avoiding routine maintenance during your guest's stay.

Wait before entering the listing

Check your local authority for guidance on how long to wait before entering a space occupied by a person who may have been exposed to COVID-19. For example, the U.S. Centers for Disease Control and Prevention (CDC) suggests waiting as long as possible (at least several hours). This waiting period is for your protection and helps to ventilate the room, to limit your exposure to aerosolized virus droplets that may be in the room. For up-to-date information on cleaning standards in your region, visit the [Airbnb Help Center](#).

Wear protective gear while you clean

Protective items like disposable gloves and masks can help provide additional protection. Avoid touching your face at all times and make sure to wash your hands immediately after removing gloves.

Make sure to review and follow any additional cleaning guidance from government or health authorities in your local jurisdiction. You can also visit the [Airbnb Resource Center](#) for additional guidance on hosting during this time.

What to do if you host a private room or a shared space

Follow these additional guidelines if you or other guests or residents have shared access to the same areas as your guests. Examples of common areas include living rooms, kitchens, bathrooms and entryways that both you and your guests can use.

Clean and sanitize common areas

Follow the five-step enhanced cleaning process for all spaces that you or your guests share with other guests, as well as their private room. Make sure to clean and sanitize common areas before every guest check-in.

Cap the guest count as needed

If required by your local laws or guidelines, make sure that your home can accommodate socially distanced occupancy of all common areas. For example, if your shared living room only has room for three people who are 6 feet/2 meters apart, you could cap your guest count at two so that you and/or your guests can be in the space at the same time.

The total number of people should also not be greater than the maximum number of people that are allowed to congregate in your listing, according to your local laws or guidelines.

Follow local guidelines for wearing masks in common areas and shared spaces

As part of our COVID-19 safety practices, when it's required by local government laws or guidelines, guests and hosts should wear a mask or face covering when interacting with each other.

In addition, please follow local laws and guidelines around social distancing in shared spaces where guests share sleeping quarters. If you're uncomfortable hosting a private room or shared space, you can list your entire place, or pause your hosting if that's not possible.

Ventilate common areas during the stay

Keep the windows open to increase air circulation in common areas, when safe to do so. You can also turn on ceiling fans to pull air upwards and position standing fans to blow air towards the windows.

You should be aware that some governments may place restrictions on hosting in private rooms or may impose additional obligations or requirements for private rooms. Please make sure to review and follow any additional cleaning guidance from government or health authorities in your local jurisdiction.

Part one

Get to know Airbnb's five-step enhanced cleaning process

In this section, we'll define some key terms, break down the five-step cleaning process and equip you with detailed instructions on how to clean and sanitize your space.

These techniques can then be applied to the specific rooms in your listing. Let's get started!

The difference between cleaning and sanitizing

Cleaning and sanitizing are two separate steps, and it's important to do both in the correct order.

Cleaning

Cleaning is when you remove germs and dirt from surfaces. For example, using a soapy sponge to wipe off a kitchen countertop or stovetop.

Sanitizing

Sanitizing is when you use chemicals to reduce the number of germs and bacteria. For example, spraying a chemical disinfectant on high-touch surfaces such as doorknobs.

The five-step cleaning process

1. Prepare your equipment and ventilate the space before cleaning

2. Clean each area by removing dust and debris

3. Sanitize all high-touch surfaces, appliances, and electronics

4. Check that the space has been thoroughly cleaned and sanitized

5. Reset the room for the next guest and restock your supplies

Next, we'll explore each of these steps in detail.

The five-step cleaning process

Step 1: Prepare

your equipment and ventilate the space before cleaning

The five-step cleaning process

Step 1: Prepare

Ventilate rooms before you clean

Regulatory authorities such as the World Health Organization (WHO) and the U.S. CDC recommend opening outside doors and windows, and using ventilating fans to increase air circulation in the space before cleaning. You can position fans to blow air out toward the window, and can use ceiling fans to pull air upwards. Ventilate the space for as long as possible before and during cleaning.

Gather the right cleaning supplies

We recommend only using disinfectant and sanitizer solutions that are registered with your local government's chemical regulators (e.g. The Environmental Protection Agency or The European Chemicals Agency).

Review the safety guidelines for your chemicals

Always read the labels on your products to understand their active ingredients and how to use them properly. For more on how to read the labels on your products and their Safety Data Sheets, check your local authority. For example, in the US, refer to the Occupational Safety and Health Administration, and in the EU refer to the European Chemicals Agency.

Wash your hands for at least 20 seconds with soap and water

If that's not possible, use a hand sanitizer containing at least 60% alcohol.

Wear protective equipment

Before you enter the space, consider putting on protective equipment such as disposable gloves, aprons or gowns, and masks or cloth facial coverings.

Take out all the garbage

Starting with this step helps prevent dirty garbage from contaminating the space once it has been cleaned. Make sure to line all the garbage cans with fresh bags, which will make it easier to dispose of tissues and other waste.

Collect all dirty linens throughout the space

We've heard from hosts that laundry is one of the most time consuming activities between turnovers. Collect dirty linens as soon as you enter the space, and avoid shaking them, which could increase the spread of germs.

Unplug before cleaning

For your safety and to protect fixtures, remember to unplug appliances before cleaning. Plugged appliances that are turned "off" are still connected to electricity until unplugged. You can also shut off the power at the breaker.

SAFETY REMINDER

Consider wearing clean protective equipment (e.g. masks) before you enter a space. Be sure to read all safety labels so you understand how to use cleaning chemicals properly.

The five-step cleaning process

Step 2: Clean each area by removing dust and debris

The five-step cleaning process

Step 2: Clean

Wash linens at the highest heat setting recommended by the manufacturer

Remember to wash your hands before you handle any clean linens.

Wash dishes and empty the dishwasher

It's important to wash the dishes used by guests to help ensure hygienic standards. Start by walking through the space and collecting dishes from every room to help avoid cross-contamination.

Dust the space and sweep or vacuum the floor

When dusting, start from the top down to ensure there are no visible signs of dirt. Sweep all hard surface floors and vacuum carpeting.

Clean hard surfaces with soap and water

Wipe each surface down to remove dirt, grease, dust, and germs. Hard surfaces include things like countertops, tables, sinks, cabinets, and floors. When mopping, work from the back corner of the room to the front, and dispose of the water in a sink that has not yet been cleaned.

Clean soft surfaces based on the manufacturer's instructions

Soft surfaces include things like carpet, bedding, and upholstery. If soiled, carefully remove any visible dirt or grime, then clean with the appropriate cleaners. If possible, machine-wash items according to the manufacturer's instructions.

SAFETY REMINDER

Do not touch your face while cleaning to help prevent the spread of germs.

The five-step cleaning process

Step 3: Sanitize all high-touch surfaces, appliances, and electronics

The five-step cleaning process

Step 3: Sanitize

Once a hard surface is clean, spray with disinfectant

Focus on sanitizing all frequently touched surfaces in the space (such as doorknobs and light switches). Be sure to sanitize electronics based on the manufacturer's cleaning directions.

Let the disinfectant stand for the specified length of time

The product label will specify the wet contact time needed for the chemicals to effectively sanitize a surface. This allows the chemicals time to kill as many germs as possible.

Allow to air-dry

If you remove the disinfectant before the recommended wet contact time, there's no guarantee that the product has killed the pathogens claimed on the label.

SAFETY REMINDER

Be sure to read all safety labels to ensure you're using cleaning chemicals properly.

The five-step cleaning process

Step 4: Check that the space has been thoroughly cleaned and sanitized

The five-step cleaning process

Step 4: Check

Review the room-by-room guidelines

Follow the checklist for each room to ensure thorough cleaning and sanitization.

Double check that all high-touch surfaces were sanitized

Correct anything that may have been missed.

The five-step cleaning process

Step 5: **Reset** the room for the next guest and restock your supplies

The five-step cleaning process

Step 5: Reset

Dispose of and wash your cleaning supplies

Throw away disposable products such as disinfectant wipes. Be sure to also clean any other tools that were used. Wash any cleaning cloths at the highest heat setting possible that is appropriate for the material.

Safely remove any cleaning gear once you are done cleaning

Dispose of or wash any protective gear according to their usage guidelines.

Wash your hands for at least 20 seconds with soap and water

If that's not possible, use a hand sanitizer containing at least 60% alcohol.

Set out cleaning supplies for your guests

We've heard from guests that they want the ability to clean on their own while staying at your listing. Empower your guests by setting out guest cleaning supplies they can use, such as disposable paper towels, disposable gloves, disinfectant spray or wipes, and hand sanitizer or extra hand soap.

Visually assess each room to ensure the stage is set for the next guest

Imagine yourself as the guest entering the listing for the first time.

Restock your cleaning supplies

Be sure to take a moment to check expiration dates and refill any supplies that you have used, so you're ready for the next turnover.

SAFETY REMINDER

Always keep chemical products out of reach of children.

Tips to help reduce the risk of cross-contamination

It's important that you find a cleaning process that works best for your space and your cleaning team. Here are some tips and techniques to help protect against contamination, while creating the most efficient workflow possible.

Clean the dirtiest spaces first

Spend the most time cleaning the areas that are most prone to germs and bacteria. This means starting with the bathroom and kitchen before moving on to the rest of the space. We recommend cleaning in the order below:

1. Bathroom
2. Kitchen
3. Bedrooms
4. Common areas (e.g. living room, dining room, office)
5. Outdoor areas
6. Entryway

Once you finish sanitizing and resetting a room, don't re-enter this space.

Replace any protective gear between steps

Each time you switch between cleaning and sanitizing, be sure to replace any gear that may have been contaminated.

End with the entryway

Complete the outdoor and interior spaces before you sanitize the entryway. Finishing your cleaning process at the entryway means you can lock up and leave as you clean.

Part two

Detailed cleaning checklists

Here you can find your go-to checklists to help elevate your day-to-day cleaning process.

Supplies to have on hand

Start by gathering all the items you'll need to clean, sanitize, and maintain your listing.

Protective gear

- Disposable gloves (recommended)
- Mask or cloth facial covering (recommended)
- Safety glasses (optional)
- Apron or gown (optional)
- Face shield (optional)
- Shoe coverings (optional)

Guest cleaning supplies

- Disposable paper towels
- Disposable gloves
- Multi-surface cleaner
- Disinfectant wipes or spray
- Antibacterial hand sanitizer
- Extra hand soap

Equipment

- Broom and dustpan
- Duster
- Microfiber cloths
- Paper towels
- Scrub brush
- Toilet brush
- Garbage bags
- Vacuum cleaner
- Mop
- Washer & dryer
- Dishwasher
- Step ladder (if necessary)
- Vacuum bags (if necessary)
- Bucket (if necessary)
- Scrub pads (kitchen only)

Products

- Multi-surface cleaner
- Multi-surface disinfectant
- Glass cleaner
- Bleach
- Laundry detergent
- Laundry stain remover
- Dishwashing detergent
- Floor cleaner
- Furniture/wood polish
- Carpet cleaner (if necessary)
- Mold cleaner (if necessary)
- Oven cleaner (kitchen only)
- Oven degreaser (kitchen only)

Prepare for cleaning

Before cleaning and sanitizing room-by-room, go through this checklist to make sure the entire space is prepared for cleaning.

- Wait as long as possible after the guest leaves before entering the listing
- Consider putting on a mask, fresh gloves, and other protective gear
- Ventilate the space for as long as possible
 - When safe to do so, open outside doors and windows throughout the space, and turn on fans to ventilate the area before and during cleaning
- Remove linens throughout the listing that have been used by your guest(s) and wash on the highest heat setting possible. This includes:
 - Bathroom towels
 - Kitchen towels
 - Dining linens (napkins, table cloths, etc.)
 - Sheets, blankets and duvet covers
 - Pillow covers and pillow liners
 - Upholstery covers (if soiled)
 - Curtains (if soiled)
- Collect all dirty dishes throughout the space and place in the kitchen
- Check any HVAC/air filters
 - Make sure they're functional and have been replaced per the manufacturer's recommendation
- Remove all garbage and recycling
 - Wipe down the bins with a multi-surface cleaner, then line with fresh bags to help avoid cross-contamination

Room-by-room checklists

Checklists for cleaning and sanitizing every room
in your listing

Bathroom cleaning checklist

Guidance on how to sanitize a bathroom that has a toilet, shower, and/or bathtub

Step 1: Prepare

- Gather your supplies
- Ventilate the space
- Refer to the “Prepare for cleaning” checklist

Step 2: Clean

- Spray all surfaces with a multi-surface cleaner, and allow it to set for the amount of time specified on the label. Be sure to cover:
 - The inside of the toilet bowl, the seat, and the seat hinges. Put down the toilet seat while the cleaner sets.
 - The surfaces of the shower walls or bathtub
 - Any tiled surfaces
 - The sink basin, handles, and backsplash
- Scrub the toilet bowl with the toilet brush to remove build-up (consider using gloves for this step)
 - When done, clean the toilet brush with bleach and flush the canister with soapy water, and close lid
- Scrub the shower walls or bathtub interior with a scrub brush then rinse clean
 - Wipe surfaces dry with a microfiber cloth. Do not reuse the cloth for other surfaces.
- Scrub the sink, basin, handles and backsplash with a scrub brush, then rinse clean
 - Wipe the basin and backsplash dry with a microfiber cloth. Do not reuse the cloth for other surfaces.
- Wipe down all tiled areas
 - Work from top to bottom, paying particular attention to the spaces between the tiles
- Clean all remaining bathroom surfaces with a multi-surface cleaner, working from top to bottom
 - Use an extendable duster to clean hard-to-reach areas such as high shelves, windowsills and the space behind radiators
- Sweep or vacuum the floor to remove any hair and debris, starting at the farthest corner in the room and working toward the door
- Mop the floor, paying particular attention to corners and the areas behind the doors
- Clean any mirrors and glass using glass cleaner and a microfiber cloth

Step 3: Sanitize

- Use a multi-surface disinfectant and spray frequently-touched surfaces and allow them to air-dry. Be sure to sanitize:
 - Door handles and knobs
 - Light switches
 - Sink, bath, and shower faucets
 - The sink basin
 - Toilet handle, seat, and surface
 - Countertops (if high-touch)
 - Cabinet handles
 - Railings
 - Garbage can lids

Step 4: Check

- Make sure you've completed all the tasks above
- Check that the lights and electronics are working properly

Step 5: Reset

- Wash your hands, and then:
 - Replace the toilet rolls, guest supplies, and fresh towels
 - Replace or refill any hospitality items (i.e. shampoo, conditioner, handsoap, body soap) for the next guest
 - Switch off all lights and devices
 - Close the windows, arrange the curtains and blinds, and turn off the lights, closing the door behind you as you exit the room

Kitchen cleaning checklist

Guidance on how to clean and sanitize a kitchen or kitchenette

Step 1: Prepare

- Gather your supplies
- Ventilate the space
- Refer to the “Prepare for cleaning” checklist

Step 2: Clean

- Remove any food or beverages the previous guest may have left in the listing
- Wash any dirty dishes you’ve collected, using a dishwasher if possible
 - Soak any dishes with stuck-on food or grease and hand-wash any items that are not dishwasher safe, such as pots and pans
 - If you don’t have a dishwasher, hand wash dishes at high heat using antibacterial dish soap
- Using a multi-surface cleaner and a clean microfiber cloth, wipe down:
 - Refrigerator shelving and interior walls as needed
 - Countertops, ledges, and backsplashes
- Clean the oven, microwave, and stovetop as needed
 - Using oven cleaner, spray the stovetop, the inside of the oven, and the inside of the microwave
 - Follow cleaning instructions that tell you how long to let the cleaner set, then scrub off any build-up with a scrub pad
 - Use a microfiber cloth and water to wash off any chemical and carbon particles
- Clean the interior of the exhaust hood with a scrub pad (if needed)
- Use a wet cloth and water to wash away any residue
- Unplug and clean additional appliances as needed
 - Disassemble (if necessary) and wipe down with a multi-surface cleaner. Scrub any debris with a scrub pad.
 - Allow appliances to air-dry or use a microfiber cloth to dry them by hand
- Clean the sink, garbage disposal, and dishwasher
 - Rinse down any food particles and soap in the sink
 - Look inside the dishwasher to ensure there is no food debris sitting at the bottom and that the inside of the dishwasher is clean
 - If it’s not clean, add dishwasher detergent and run the dishwasher without any items inside
- Sweep the floor and remove debris with a dustpan
- Mop the floor, paying attention to the corners and the areas behind the doors

Step 3: Sanitize

- Use a multi-surface disinfectant to spray frequently-touched surfaces and allow them to air-dry. Be sure to sanitize:
 - The faucet and sink basin
 - Doors and door handles
 - Knobs and handles, including those on the refrigerator, oven, microwave, and dishwasher
 - Silverware holders
 - Fan and lamp chains
 - Garbage and recycling bins
 - Light switches
 - Railings
 - Tabletops and countertops
 - Thermostats
 - Keys
 - Remote controls
 - Your Airbnb welcome book

Step 4: Check

- Make sure you've completed all the tasks above
- Check that the lights and electronics are working properly
- Dry off any metal surfaces or appliances with microfiber cloths

Step 5: Reset

- Wash your hands, and then:
 - Put away any pots, pans, appliances and dishes that have been moved
 - Replace cleaned linens, such as dishtowels
 - Replace any racks and plates you removed from the refrigerator, microwave or oven
 - Switch off all lights and devices
 - Close the windows, arrange the curtains and blinds, and turn off the lights as you exit the room

Bedroom cleaning checklist

Guidance on how to clean and sanitize a bedroom or dedicated sleeping area

Step 1: Prepare

- Gather your supplies
- Ventilate the space
- Refer to the “Prepare for cleaning” checklist

Step 2: Clean

- Dust all surfaces with a microfiber cloth and a multi-surface cleaner
 - Use an extendable duster to clean hard-to-reach areas
- Pull the bed away from the wall and vacuum all carpeted areas, including behind, and under, the bed
- Sweep all non-carpeted areas with a broom and dustpan, including behind and under the bed
- Mop all non-carpeted areas, paying particular attention to corners and the area behind the doors
- Wipe down electronics with a damp microfiber cloth, following the manufacturer’s guidelines
- Use furniture polish as needed on wooden furniture, such as bed frames and tables
- Spray glass cleaner on a new microfiber towel and clean any glass, mirrors, or windows from top to bottom

Step 3: Sanitize

- Use a multi-surface disinfectant and spray frequently-touched surfaces and allow them to air-dry. Be sure to sanitize:
 - TV remote
 - TV screen buttons
 - The telephone
 - Light switches
 - Doorknobs
 - Bedside tables
 - Frequently used electronics
 - Buttons and handles of drawers/armoires and blinds

Step 4: Check

- Make sure you've completed all the tasks above
- Check that the lights and electronics are working properly

Step 5: Reset

- Wash your hands, and then:
 - Make the bed using fresh, clean sheets, pillow cases, and a duvet or comforter
 - Replace or refill any hospitality items for the next guest
 - Switch off all lights and devices (where applicable)
 - Close the windows and arrange curtains/blinds

Common room cleaning checklist

Guidance on how to clean and sanitize a common area, such as a living room, family room, dining room, or office without a dedicated bed

Step 1: Prepare

- Gather your supplies
- Ventilate the space
- Refer to the “Prepare for cleaning” checklist

Step 2: Clean

- Remove objects from the surface of tables and shelves, such as decor, lamps or place-settings
- Dust shelving, surfaces, and items below, starting from the highest shelf and working from left to right:
 - TVs
 - Speakers
 - Lamps
 - Shelving
 - Cabinets
 - Wall art or pictures
- Using a multi-surface cleaner and a clean microfiber cloth, wipe down table tops and other surfaces as needed
- Vacuum rugs, carpets, sofas, chairs and other seating
- If there are any stains:
 - Use a microfiber cloth, bristle brush, and stain remover to spot treat any carpet stains
 - Gently blot any upholstery stains using a water and detergent solution
- Sweep non-carpeted areas and remove debris with a dustpan
- Mop the floor, paying particular attention to the corners and the space behind the door
- Spray glass cleaner on a new microfiber towel and clean any glass from top to bottom

Step 3: Sanitize

- Use a multi-surface disinfectant to spray frequently-touched surfaces and allow them to air-dry. Be sure to sanitize:
 - Doorknobs
 - Cabinet knobs
 - Fan and lamp chains
 - Keys
 - Light switches
 - Railings
 - Remote controls and any gaming consoles
 - Tabletops
 - Thermostats
 - Garbage can and recycling bin lids
 - Frequently used electronics
 - Your Airbnb welcome book
 - Smart keypads (if applicable)
 - Gym and exercise equipment (if applicable)

Step 4: Check

- Make sure you've completed all the tasks above
- Check that the lights and electronics are working properly

Step 5: Reset

- Wash your hands, and then:
 - Replace any objects that may have been moved during cleaning
 - Reset freshly laundered linens such as throw blankets
 - Set out cleaning supplies that guests can use during their stay, such as:
 - Disposable paper towels
 - Disposable gloves
 - Multi-surface cleaner
 - Disinfectant wipes or spray
 - Antibacterial hand sanitizer
 - Extra hand soap
 - Switch off all lights and devices
 - Close the windows and arrange curtains/blinds

Outdoor area cleaning checklist

Guidance on how to clean and sanitize a patio, deck, or outdoor area

Step 1: Prepare

- Gather your supplies
- Ventilate the space
- Refer to the “Prepare for cleaning” checklist

Step 2: Clean

- Sweep outdoor patio spaces and dispose of debris using a dustpan
- Use a broom or duster to remove visible dirt/cobwebs from walls, screens or ceilings
- Shake out any rugs
- Vacuum the surface of any soft patio furniture
- Using a multi-surface cleaner, wipe down hard surfaces, including light fixtures, outdoor furniture, shelves, or outdoor cooking areas (shelves, barbecues/grills)
- Spray glass cleaner on a new microfiber towel and clean any glass from top to bottom

Step 3: Sanitize

- Use a multi-surface disinfectant and spray frequently-touched surfaces and allow them to air-dry. Be sure to sanitize:
 - Doorknobs
 - Screen door handles
 - Light switches
 - The outdoor fridge handle (if applicable)
 - The barbecue/grill (if applicable)
- If you have a pool or hot tub, follow the manufacturer’s instructions on cleaning and sanitization

Step 4: Check

- Make sure you've completed all the tasks above
- Make sure that the furniture is clean and in good condition
- Make sure that all lights, appliances, and amenities (e.g. hot tub) are in working order

Step 5: Reset

- Wash your hands, and then:
 - Replace any objects or cushions that may have been moved during cleaning
 - Replace any freshly laundered items like furniture covers or towels

Entryway cleaning checklist

Guidance on how to clean and sanitize the interior or exterior entryway of your place

Step 1: Prepare

- Gather your supplies
- Ventilate the space
- Refer to the “Prepare for cleaning” checklist

Step 2: Clean

- Shake out the floor mat to remove dust and debris
- Use a microfiber cloth or duster to clean:
 - The top and sides of furniture
 - The door entrance and door hinges
- Wipe down any surfaces with visible dirt, and spot clean any stained carpets or rugs
- Sweep the door threshold plate, crevices, and baseboards
- Vacuum all rugs and carpets, as well as sofas, chairs and other seating
- Mop the floors, paying particular attention to the corners and the areas behind the doors
- Spray glass cleaner on a new microfiber towel and clean any glass or windows from top to bottom

Step 3: Sanitize

- Use a multi-surface disinfectant and spray frequently-touched surfaces and allow them to air-dry. Be sure to sanitize:
 - The doorbell
 - Doorknobs
 - Keypads
 - Handrails
 - Light switches

Step 4: Check

- Make sure you've completed all the tasks above
- Check that the door locks, unlocks, opens and closes easily
- If you have a keypad, check that it is clean and in good condition
- Check that any lights are working properly

Step 5: Reset

- Wash your hands and then lock the door behind you
- Step back and admire your hard work. You did it!

Cleaning is a process, and we're in it together

By following this cleaning protocol, you're offering a great guest experience and taking significant steps toward protecting yourself, your guests, and the global Airbnb community. We know that introducing a new process into your workflow takes time, so we've developed new host education and product features to help you get up to speed.

For up-to-date information on cleaning standards in your region, visit the [Airbnb Help Center](#)

For more information and resources, visit airbnb.com/hosting/cleaning and read the [Enhanced Cleaning FAQ](#)
