WHAT ARE GUESTS CREATING?

A 5x7" or 6x6" Beeswax & Collage Painting: Guests will be painting with encaustic. This is an ancient painting method developed by the Greeks over 2,000 years ago. Encaustic paint is beeswax, pigments, and resin that is kept molten on a heated palette.

Subject Matter: We will focus on creating florals with wax, paper, and collage materials. Guests can also paint abstractly or use a different subject.

GUEST EXPECTATIONS:

We all learn differently. We all paint differently. We won't all paint the same image.

Teaching style: My teaching style is learning by doing. I will be asking guests to dive into the process and just try it. Each individual painting will have different processes and techniques. Each guest is individually instructed.

Satisfaction: Please set your guests up for realistic expectations. Painting with hot wax is a unique process that can be challenging especially when trying to get fine detail. This workshop is about learning a new process with endless possibilities.
