Thanks for an amazing event, I had an ace time. Please could you pass on my massive thanks to the Pacer for 2 hours 15 minutes. I never got to thank him and don't know his name. He helped me smash my expectations and encouraged me all the way round. I didn't quite make 2:15 but came in about a minute later which still knocked 20 mins off what I'd managed in training. I was struggling loads from half way round as I have quite bad asthma and it was a tough pace for me, but he was a total superstar and gave me loads of support. Couldn't have done it without him 😊
Also the vegan cupcake was delicious, thank you!

What a great half marathon, very well organised and informative staff and Marshalls. Kids had a great time at the track with the kids races. The issues I witnessed with traffic seemed to be around the junction of the entrance near the befeater, just prior to that was not great diversion signs. This did no reflect on the other organisation nor the event atmosphere. I hope I can be part of it next year rather than been a expectator.

Adam Skelton Hope it's not the first and last and that the local media focus on the negatives. The course was fantastic and I would def describe it as undulating and not flat lol. Hung around the lakeside after til the roads reopened which wasn't a problem. Would I be back? Definitely 🙌👍

Louise Egan But you know what, there is just a lot of people all using a small amount of road, it's always going to be busy. I've been to races that are far worse. I think it is just something you come to accept when you do races. Not the end of the world if you have to wait a bit. Great event Curly's. Thanks.

Fantastic to now have this in Doncaster - hopefully the first of many. It ran very smoothly, thank you to all the volunteers, organisers and supporters. Other events in towns and cities throughout the UK don't receive such critical feedback from residents about traffic. Such a positive influence and opportunity for Doncaster should be embraced.
