MAKER MASTERMIND: STEVEN CW TAYLOR

DreamSpring's Maker MasterMind series is a monthly conversation featuring creative entrepreneurs who are building businesses, creating art, and making an impact. Presented as part of our DreamCreative initiative for creative small businesses, this virtual series offers personal stories and practical advice to entrepreneurs in the creative industries.

This June, join us in conversation with Steven CW Taylor, artist and founder of Ubuntu Fine Art. At Ubuntu Fine Art in Philadelphia, Steven offers a multi-sensory experience that harmonizes visual art, ambient sounds, and curated scents, inviting viewers to engage deeply with his work. As a passionate artist, Steven continues to inspire and connect through his powerful photography.

DreamSpring

Funding business dreams, vitalizing communities.
