# ADDITIONAL PRODUCTION SERVICES

## TECHNICAL ADVISOR

## PROPS & WEAPONS

## ARMORER & SAFETY

There is much more to CPRNY than just props and costumes.

With nearly 30 years of firearms experience and training, 25 years of law enforcement experience and 12 years of military service, working as an instructor in both uniforms, our owner is a safety conscious prop master, weapon technician, armorer as well as a technical advisor and on-set consultant. We have assisted multiple productions with scene set up, police techniques and processes as well as weapon proficiency and safe handling. Following the tragic firearm incident our owner was featured on nearly every network, cable news channel and across the globe speaking on topic of prop weapon safety and proper protocols to ensure a safe set with weapons, actors and crews.

We believe that ***"Safety is Never an Accident!"***

We will work with your actors and crew to ensure that everyone is comfortable with the safety measures we take on set when prop weapons and action sequences are involved.

**Digital Design and Graphic Props:** we maintain a vast library of forms, documents, custom images, logos and ready to print props available on short notice. As these images, props and other IP's are created and owned by us, they are available to our clients for use during our time under contract without clearance.

**CUSTOM PATCHES, UNIFORMS and ACCESSORIES:** Having direct purchase accounts with many of the companies that supply our first responders, we are able to produce one of a kind uniforms and accessories to match your goal with a short turn around time. We can also design custom patches and have them made within 2-3 weeks in various quantities.

**Prop Fabrication and Reproduction Services:** we can provide several prop services during pre-production to create one of a kind props or produce stunt safe versions of your hero props. We can also modify existing props to match your desired look.
