

Mukwonago Crazy Quilters Paper Piecing with Freezer Paper

Winter Block - 12-1/2 inches square unfinished

Trim pattern pieces RS Unit and LS Unit on outer line of patterns. You will use each pattern four times. Fold or stitch on each inside line of pattern using sewing machine with long stitch and no thread and fold.

Select seven different cool/wintery fabrics paying attention to contrast and placement as shown in photo. Make sure you have enough of each fabric to make four RS and four LS units. Label fabrics (RS 1-4 and LS 1-5).

Place fabric RS 1 with wrong side facing shiny side of area RS 1 of pattern making sure there is a margin of fabric extending on all sides of area RS 1. Press with medium heat to hold.

Fold back the pattern along the line between section one and two and use rotary cutter and add a 1/4-inch ruler to trim the fabric 1/4 inch from fold.

Place RS 2 fabric with right sides facing and edges matching trimmed seam of section one.

Check placement making sure the fabric covers section two.

Sew next to fold of pattern leaving a 1/4-inch seam being careful not to sew through the pattern.

Open fabric and pattern and press fabric to section two of pattern.

Fold back the pattern along the line between section two and three and trim seam as before.

In the same way add fabrics three and four.

Using rotary cutter and ruler, trim along outside lines of pattern.

Remove freezer paper pattern and use pattern and same method to make three more RS Units

Use LS Unit pattern and fabrics LS 1-5 and same method to make a total of four LS Units.

Sew RS and LS units together with a 1/4-inch seam as shown in Diagram 1 making four units. Press the seams of the four RS/LS Units to the left. Sew two RS/LS units together making a top and bottom half. Press seams to the left. Then sew the top half and bottom together and press seam open. Do not trim block.
