

Candy Boxes

Cut 18 "two- and one-half inch" squares from ten to eighteen different pieces of bright scraps.

Sew into two strips with four squares and two strips with five squares

Fold a five-piece strip in half to find the center that you can match to the center of a four-piece strip.

Sew these two strips together.

Find the center of the second five-piece set and sew it to the first two attached strips.

Add the final four-piece strip to the first three strips.

Square up the four-strip block to "8- and one-half inches".
