## QID27 - Please provide any other thoughts you might have regarding the possible renovation of William S. Rea Park:

Please provide any other thoughts you might have regarding the possible ren...

As long as no taxpayers money is involved, then go for it. Place a surcharge on golfers to pay for it as they are the only beneficiary.

Rea Park is a Park that has a golf course. It is very underutilized because of the vast amount of land that is not used for anything except to grow grass. We don't just live in this city we raise our families in this city.

I live near Rea Park. It would be nice to live so close to a park that I can actually use. As it is today, we have to drive to Deming, Dobbs or other parks as it Rea is not usable to all citizens, only those who golf or play tennis. We play pickleball so it would be great to have a court on our end of town.

The parks dept. seems to have a lot of "high" priorities. Keeping two golf courses running, not raising the green fees to cover costs of the facilities, staffing levels have to remain the same at the courses AND extra \$\$ to renovate the Rea Park building, AND, AND, AND at some point tough decisions need to be made. Use any State, Federal or foundation \$\$ but don't syphon off captial money, or other local tax money for this project.
