**EDWARDSVILLE WATER CORPORATION**  
**WATER USER'S AGREEMENT**

This agreement, between the **EDWARDSVILLE WATER CORPORATION**, a non-profit corporation, organized and existing and by virtue of the laws of the State of Indiana, hereinafter called the Company, and \_\_\_\_\_ (Member 1) and \_\_\_\_\_ (Member 2) member(s) of the Company hereinafter called the Member.

**WHEREAS:** The Member desires to purchase farmstead or domestic water from the Company, and to enter into a water-user agreement as required by the bylaws of the Company.

**NOW, THEREFORE,** in consideration of the mutual covenants, promises and agreements herein contained, it is hereby understood and agreed:

The Company shall furnish, subject to the limitations hereinafter provided for, such quantity for domestic and farmstead purposes as the Member may desire in connection with his/her occupancy of the following described property.

The Member shall install and maintain at his/her own expense a service line, which shall begin at his/her property line and extend to the dwelling and other portion of his/her premises.

The Member's service line shall connect with the distribution system of the Company at the nearest place of desired use by the Member, provided the Company has determined in advance that the Company water system is of sufficient capacity to permit delivery of water at that point.

The Member shall pay for such water at such rates, time, and place as shall be determined by the Company.

The Company shall purchase and install a cutoff valve and may also include a water meter in each service. Such cutoff valve and meter shall be installed at a point agreed upon between the user and the Company. The Company shall retain ownership of, and have exclusive right to use such cutoff valve and water meter and to turn it on and off.

The Company shall have final jurisdiction in any question of location of any service line connection to its distribution system; it shall determine the allocation of water to members in the event of a water shortage.

The failure of a Member to pay water charges duly imposed shall result in the automatic imposition of the following penalties:

Non-payment within seventeen (17) days from the due date will be subject to a penalty of ten percent (10%) of that part of the delinquent account, which does not exceed \$3.00, plus 3% of any delinquent amount in excess of \$3.00.

A Non-payment within thirty (30) days from the due date will result in the water being shut off from the Member's property.

Non-payment for sixty (60) days after original due date will allow the Company, in addition to all other rights and remedies to purchase the Member's Membership Certificate and terminate his/her membership, and, in such event, the Member shall not be entitled to receive, nor the Company obligated to supply, any water under this agreement.

We have entered this agreement on \_\_\_\_\_ .

**TO ALL MEMBERS**

A PRESSURE-REDUCING VALVE SHOULD BE INSTALLED INSIDE YOUR HOUSE TO REDUCE THE WATER PRESSURE. This will help protect your plumbing and should reduce your water usage.

A check valve should be installed to prevent water from draining out of your hot water heater should we have a line break or pump failure.

**NOTICE TO ALL NEW MEMBERS**

Upon request for a meter to be set, you should consider how much landscaping is needed before deciding upon setting. The meter should be set so that it is level with the top of the ground after final grading is done. Grading should be done before the meter is set. If it becomes necessary to raise or lower the meter, a charge will be made for this cost to the member.

**TO ALL NEW SERVICE CUSTOMERS**

PLEASE BE ADVISED THAT IT IS A CRIME OR THEFT TO REMOVE A WATER METER, INSTALL A JUMPER AND USE UNMETERED WATER. IF THIS SITUATION ARISES PERTAINING TO YOUR METER, THE FOLLOWING CHARGES WILL BE APPLIED TO YOUR ACCOUNT.

Tampering with a meter	\$40.00
Reinstalling meter & locking	\$15.00
Estimated charges for water usage (5,000)	\$25.00
Unlock Fee	\$15.00
Total to be paid before meter is unlocked	

**RECOMMENDATIONS FOR LINE INSTALLATION**

- 1" PVC line – 150-200 lb Test
- Install line to a depth of 30"
- Cutoff Valve
- Check Valve
- Pressure Regulator Valve
