MeWe Guide

Just for you by Gayle McLeod

MeWe is very similar to FB, but is arranged a bit different. So it takes awhile to figure this out. I am still learning, but this should get you going.
After you get your home page set up it is time to use the navagition bar.
There are a number of pages about Groups, as that is usually the most important part of your online social life, right?
There are three major pages you navigate between, and they are located on the navigation bar.
One major difference is the group postings are separate from the personal postings. That really threw me off.

I highly suggest you join these 2 groups after you get set up: New to MeWe and MeWe How To Videos.

This is my Timelinepage

Setting up your page is very similar to FB.

Adding Friends

This is where you start adding people. And your friend show up here, like your friends list on FB. Besure you add me!

When is the last time cops mistakenly shot a white guy 20 times in his own backyard because he had a cellphone?

Never. The answer is never.

@JulianAssange

I have deleted my Facebook.

In fact, I never had one. Friends don't put their friends into a giant intelligence database controlled by a megalomaniac who calls his users "dumb fucks" for trusting him.

Zuck: Yeah so if you ever need info about anyone at Harvard

Zuck: Just ask.

Zuck: I have over 4,000 emails, pictures, addresses, SNS

[Redacted Friend's Name]: What? How'd you manage that one?

Zuck: People just submitted it.

Zuck: I don't know why.

Zuck: They "trust me"

Zuck: Dumb fucks.
