

General

How do you determine which movers to approve ?

Each company that applies is checked for their relevant state and federal transportation licenses, their valid liability, auto, cargo, and their previous loss history (in terms of past claims), Better Business Bureau record (although we do not require they be a BBB member), and their general household goods transportation experience. *We do not represent or certify these requirements have been met. You should perform your own review of qualifications when choosing your mover.*

Do you rank companies on your system based on their quality and performance?

Yes

Can you recommend a service provider we should use for our move? No
