*Need assistance with anything else
safety and compliance related?*

We're here to help and guide you.

ABOUT US

YOUR FIGHTING SPIRIT

Meet Abe Drezner and
Sam (Shamshi) Szegedin.

The co-founders of Titanium Defense Group. With years of experience in the construction labor industry, they know the nature of the beast. Before founding Titanium DG, they successfully handled a multitude of litigations and revamped the compliance and safety protocols of the large construction company they managed. Now, they're on a mission to provide peace of mind to every employer of labor. With their support, there's no need to navigate complicated compliance regulations and the inevitable labor incidents alone.
