Our relationship with Musselman Excavating company began in 2008, when we bought a farm in Frederick MD and decided to develop it into an equestrian training and boarding facility. Jeff and his team were instrumental in developing the farm for placement of our barns and connected indoor arena. Their advice, involving water drainage, with appropriate placement of our roads and drainage pipes and septic tanks were invaluable. They also helped to develop our indoor and outdoor riding arenas with invaluable advice on the footing. Jeff can just look at piece of land and know what needs to be done.
