

ROOFING TOOLS

Hardener safety dispenser:
Do not attempt to use this system without a safety dispenser.

Extension pole

Cure It mixing bucket:
Essential for determining the correct hardener addition.

A TOOLS ACCESSORY
PACK IS ALSO
AVAILABLE.

Brushes: For detail work and bandaging.

A sanding head: Useful for topcoat preparation.

Paddle rollers:
A critical part of the system. Used to saturate the reinforcement mat with resin and remove trapped air.

Application rollers: Should be used with an extension pole for the main laminate.
