The last 2 lines are reserved for corrections. Write the birth number and correction you would like to change in any of the 1 - 25 births.

Key:

ID # - The # IRM assigns you when you create a account. **Client # or code:** The identification # or code listed on your clients charts. **# of appointments:** # of prenatal appointments you have provided the client. If none write 0. **Assist or Primary:** Assisting = A, Primary = P. **Setting of birth**: Home = H, Birth Center = BC, Hospital = H, Other = O. **Inside the USA?:** yes = Y, No = N. **Description of your role and birth outcome:** Examples: Did the mother end up transferring? Hemorrhaging? Apgar score? **Preceptor ID #** -The # IRM assigned a preceptor after **Register a Preceptor** form was completed.

Requirements:

- 25 Continuity of Care births - Continuity of Care includes at least 6 prenatal exams over a span of 2 trimesters.

- Births must be logged in chronological order.

Please direct all questions and submit completed form to test@internationalmidwife.org.
