The last 2 lines are reserved for corrections. Write the exam # and correction you would like to change in any of the 1 - 150 prenatal exams.

Key:

ID # - The # IRM assigns you when you create a account. **Client # or code:** The identification # or code listed on your clients charts. **Initial Exam:** Yes = Y, No = N. **Preceptor ID #** -The # IRM assigned a preceptor after **Register a Preceptor** form was completed.

Requirements:

- 150 prenatal exams, these exams will range from the initial prenatal exam and throughout all 3 trimesters.
- These exams must be completed as primary and logged in chronological order.
- Exams must be completed as Continuity of Care - Continuity of Care includes 6 prenatal exams over a span of 2 trimesters.

Prenatal exam must include: Urinalysis, weight with proper use of scale, manual blood pressure, fundal height, palpation of the fetus to determine engagement, position and lie, fetal heart tones, finds the due date using a gestational wheel or calendar, assesses edema, discusses mothers concerns/answers questions, and proficiently charts findings.

Please direct all questions and submit completed form to test@internationalmidwife.org.
