We have both 4 Day and 5 Day options available. \$350 fee is payable on registration to secure one of the limited seats available. This also guarantees that your student license can issued for the curriculum and the required books are packaged up for you.

This also guarantees that your student license can issued for the curriculum and the required books are packaged up for you. Day rates for our private school and tutoring services are paid monthly in advance, by the 1st of the month.
