

THE DIAMOND OF DOOM

DOOM

Hello and welcome to the UCI Ant Hill! The five prominent clans, the Mushvillians, Floralans, Butterlandians, Acornians, and the Slimelandians care for the lands and live together in harmony and peace. Together, they protect and preserve their beloved Diamond, which has shined brightly across their lands, since the founding mothers. For thousands of years, there has been constant peace and prosperity but there has been a prophecy spreading across the hill, said by one wise Peter, that there shall be a day where the dark goo curses the land. The sacred diamond of the garden will be the land's doom as it is possessed and showers the hill with endless deadly black goo, killing their crops and destroying their homes. Over the years, the prophecy became true, as several dark plagues have periodically effected the hill. Now, it has gotten far too worse and the hill has increasingly become more ill by the hour. The creatures of the hill bind together to make a several day journey full of deadly obstacles such as rushing students, electric scooters, and golf carts, to gather at the center of the hill, Aldrich Park, before the black goo takes over the lands. It is there that they shall fight and collectively utilize each of their talents, to defeat the black goo and save the hill once and for all!!

It would be your mistake to trust a Butterlandian.
