

# AccuRack UBR2-4W5H-MOD

Quality • Strength • Durability

**AMP HOURS: 1700**

**CELLS: 20**

**WEIGHT: 424 LBS**

1. "V" Rib design creates fixed spacing between batteries
2. Guide ribs provide for an easy battery installation
3. Ventilated shelf design for added air flow
4. Removal of batteries no problem even after typical "swell"
5. Replaceable threaded inserts eliminates fouled threads
6. Fewer parts means lighter and easier to assemble
7. Fits all major manufacturer's batteries
