

## 2019 Executive Challenge: Black, White and a Pop of Colour

*By limiting our colour palette, we stretch our imaginations to make dynamic and exciting quilts.*

Inspired by a QuiltCon challenge not long ago, the 2019 MMQG Executive challenges YOU to make a beautiful quilt using ONLY Black, White and ONE other colour.

### How the Challenge Works:

1. The challenge is to make a quilt, with a very limited colour palette: Black, White, and ONE other colour.
2. Your quilt must be a minimum of 200" in circumference (e.g. lap size).
3. Finished quilts are due at Show & Share at the June meeting. If you are unable to attend the meeting you can submit a photo of your quilt to [mmqgswaps@gmail.com](mailto:mmqgswaps@gmail.com) by the end of the June meeting.
4. All entries will be entered into an online voting competition for great prizes which will be awarded at the July meeting.

### Frequently Asked Questions:

- **Can I use prints?** Yes! As long as said prints include ONLY black, white and your chosen pop of colour.  
**Example:** If I'm using black, white and purple, I can use prints that contain black, white and purple or any combination of those; however a print with purple flowers with yellow centres or green leaves, is not permitted.
- **Do I HAVE to use black/white/a colour?** Yes! Please use black, white, AND your colour in your quilt.  
**Example:** If I'm using purple as my colour, my quilt must ALSO contain black and white in some way.
- **Can my black/white/colour be represented in my thread only?** Yes! Thread IS a permissible way to use black, white or your colour, so long as it is visible in the finished quilt.  
**Example:** My quilt is white and purple, but I've quilted it with black thread. Great! It's all good.  
However, just piecing your top with black, white or the colour thread - that is not visible in the finished quilt, doesn't meet the criteria.
- **Can I use shades of a colour?** Yes! Keep it in the colour family and it is permissible.  
**Example:** Yellow-green is my pop of colour, I have many yellow green scraps and prints (light and dark) that I can use. I should not venture into blue-green or purple-green territory.
