

2020 Executive Challenge - Improv

Drumroll please

It's a new year and a new decade! Let your imagination soar and your fingers run wild!!

This year the Executive is challenging you to make an Improv Quilt!! No patterns, but you still need a plan or maybe you don't! See where your creativity takes you!! Not enough fabric - no problem - add something different! Never tried improv. Now's your chance! Started something with Cheryl Arkison? Here is an incentive to finish what you started!

Use a picture, a saying, a feeling as inspiration - whatever. It's an improvisation so there are no rules!!

Since improv is new to some members we don't need to get carried away (although some of us already have). This year we are offering the chance to make a mini improv quilt. Of course, if you wish to go larger you may! After all it's improv!!

The only requirement is that it's a minimum of 96 inches around the perimeter. That's 24 inches per side for a square or if it's a rectangle - you do the quilt math! And that's only the minimum - go bigger if you want. There are NO restrictions for colour, fabric etc.! Quilts must be finished and bound.

Because this challenge might be a bit more challenging for some of us, we are extending it to cover most of the year. This quilt challenge will end at the October meeting. If you can't attend email us pics or if you're finished early bring it in any month to Show & Share!

Can't wait to see what quilty improv goodness your creative and fertile imaginations bring forth!!
