

Dear Homeowner,

As spring approaches the RM and Hamlet Board would like to take this time to remind you of the potential flooding that can occur within the Hamlet of Neuanlage. The Hamlet will be taking preventative measures to clear the culverts and ditches.

We would like to remind you that as a homeowner you are responsible for your own dwelling when it comes to flooding. Negligence can result in major damages to you, please take preventative measures in protecting your dwelling in the case of potential flooding.

For more information, please visit the Water Security Agency website at <https://www.wsask.ca/> . Under the tab “Lakes and Rivers” you can find information on how to prepare. They also note that there may be insurance coverage options available and you can contact your insurance agency to inquire.

We would also like to note that re-directing water and moving snow from your property to Municipal right of way is **PROHIBITED**.

For your reference, Bylaw 3.2019 is available for viewing on the RM website www.rmofrosthern.ca or at the office. This Bylaw has been passed by council this year and failure to comply will result in a fine.
