DAM: Rottgems Vidsams Vahla

Minor puppy, 6 months, in full development, friendly and social, would like a bit more temperament, very good skull, well set and carried big ears, good stop, middle brown, a bit big, but still almond shaped eye, scissor bite, very good mouth pigment, would like a bit more fill under the eye, strong dry neck, very good top and underline when standing, slightly sloping croup, well set and carried natural tail, very good chest proportions for her size and substance, good angulations in front, steep in upper arm, very good angulations in rear, standing straight on her front legs, very good coat and markings, free movement, showing lots of puppy elements on the move, she needs a bit more time to develop further.
