Rottgems Vidsams Vahla

4 1/2 month old male good size and proportions pleasing outline. Handsome and typical male correct skull and foreface, large ears well set and carried, well set almond shape eyes, scissor bite dentition and development very promising pigment. Very nice neck and topline very well laid should upper arm a little steep medium bone pasterns quite good for the age toes a little long and splayed medium to good hindquarter angulation tail correctly set and carried correct coat marking warm and well defined Moves slightly close behind. Elbows need to firm. Topline firm enough on the move for the age would like a little more reach overall a Good ground covering gait.
