Tel. and WhatsApp: 1-631-672-3150

Worldwide PPE – 383 E. Main St., Centerport, NY 11721 USA

## Who Are We?

Our company has spent several months resourcing nitrile gloves and PPE for a client servicing government hospitals in the USA. We fulfilled that contract and during our research and vetting we established relationships with several reputable factories and resellers. **We are registered and verified by USA Federal Government procurement program (SAM).**

The glove market has become extremely fluid with regards to pricing and availability. If you see any gloves on this list that meet your needs **please contact us immediately** so we can confirm and update. The market moves quickly. Pricing on our listings are recent and provided as examples to assist you in brand selection to understand budget numbers.

## How We Work:

There are many scams in the market. There is NO company, ANYWHERE in the world that is sitting with a billion boxes of unsold gloves. There are no \$4 box gloves. The Covid crisis has created countless scams and schemes and millions of dollars has been stolen by dishonest operators.

All of our factories and Allotment Holders operate honestly and respectfully. The pricing in most cases is at or just below market. The advantage of working with us is having a professional business assist you or your clients in securing the product. Our company is established for the last 40 years with an excellent track record. Our position is as Buyers Consultant in facilitating orders. We report all scams and frauds to the FBI.

## WORK WITH PROFESSIONALS

Martin Stevens is a 40-year business veteran responsible for several successful and ongoing ventures. We are a team of professionals, not a guy with a cell phone working from his car! There is a SERIOUS need for an honest and professional sales organization in the PPE market. Unfortunately most dealers are wheeler-dealers and not long-term players. We are the answer!

*Please feel free to research our owner and our companies:*

## **WE ONLY SELL REAL PRODUCTS FROM DIRECT FACTORIES AND TRUSTED ALLOCATION PARTNERS**

**Our company is set up to sell to REAL BUYERS, not a maze of brokers.** The problem in the PPE industry is 99% of “brokers” have zero experience, chase fake product and worry more about commissions they will never make...because they will never facilitate a sale.

**WE WILL NOT CHASE** bogus inventory OR low priced goods that do not exist. We will not waste our time, or yours, filling out reams of paperwork to end up with NOTHING but excuses and your personal info exposed weeks later.

We all want instant delivery, cash and carry deals, BUT they do not exist. Our clients come to us after many failures with other companies. Wasted time, wasted money and lost opportunity. **WE HAVE THE GOODS** – depending on the item it will be 7-30 days for your delivery. PERIOD. You will get gloves. You will get a fair price. You will NOT waste your time!

### **Buying Procedure:**

We answer 100's inquiries daily and want to assist everyone. We work with multiple suppliers who are also overwhelmed by inquiries, many of them unqualified. **If you are a legitimate end-user you should not and do not have to fill out a dozen forms to get pricing or assistance.**

**We require the following basic paperwork to facilitate an order:**

1. NCNDA
2. LOI, LOA
3. Proof of Funds (POF or SBLC, NT-199) etc.

We are not interested in working with 5-layers of brokers and intricate commission schemes. **Please do not contact us if this is your situation. Our prices are NET to buyer. WE DO NOT INCLUDE COMMISSIONS IN OUR PRICING *except on Cranberry or Cardinal.*** For serious brokers you can add reasonable markup and it will be paid IMFPA after deals close. NO chain of brokers. Create a Paymaster if you have a chain.

After completion of the above a contract can be prepared. We all want to have a secure agreement and work with specific needs of every buyer. Our factories will start production with LC and PO. All of our suppliers welcome SGS certification. With LC orders no monies are exchanged until inspection/delivery.

Serious buyers have attorneys who understand the requirements of a safe transaction. This may include escrow and other avenues. No one is dispersing millions of dollars to a stranger nor do we expect you to.
