Back Pain Relief

Physical therapy is one of a physical's best tools for treating back pain. Not only is it a treatment, but it is diagnostic also. In a physical therapy evaluation, our experts analyze joint movement, posture, gait, balance and much more to determine what areas have limited movement, weaknesses and poor coordination. Then working with your protocols, we coordinate a thorough treatment plan that will address these problems for long-term relief and solutions.

PT effectively relieves back pain by:

- Reducing inflammation and pain quickly
- Improving spinal joint motion
- Improving spinal muscle stability
- Increasing pelvic and abdominal support
- Restoring natural pain-free movement patterns
- Restoring natural posture and spinal alignment
- Educating the patient for long-term results with a home program
- Coordinates and reports findings and treatment to physician

Help your patients experience long lasting results for back pain relief and other musculoskeletal conditions. In a changing healthcare environment with high costs, physical therapy provides a proven safe and low cost solution that helps patients achieve great results for back pain and other musculoskeletal pains. Refer your patients to Greater Baton Rouge Physical Therapy. They will thank you for it!

Your Patients Will Thank You!

PATIENT RESULTS

They show you that they care!

“They show you that they care about your healing. No long waits and the staff is very pleasant. Love going there!!” - Gwendolyn K.

Have your patients schedule an appointment by calling
225-454-6005!

Wegene
Ethiopian Foundation

ABOUT US

The Wegene Ethiopian Foundation (WEF) is a U.S. based nonprofit that was founded 25 years ago with one clear mission: to improve the lives of disadvantaged children and families in Ethiopia by tackling poverty through education, housing, and family stability.

What began as a heartfelt conversation among friends became a lifelong commitment to change lives—one child, one family at a time.

WHAT WE DO

At WEF, we are dedicated to breaking the cycle of poverty in Ethiopia by focusing on four critical pillars:

HOUSING - We provide safe and stable living conditions.

EDUCATION - We provide access to quality education and long-term academic supports.

FAMILY STABILITY - We provide food, basic necessities, and empower families through skills training.

HEALTH SUPPORT - We provide health education, medical insurance, and feminine hygiene supplies.

With over **TWO DECADES** of impact, WEF continues to uplift lives.

**REBUILDING FAMILIES,
ONE CHILD AT A TIME.**

Some of our Accomplishments

WEF has empowered over 260 families to achieve self-sufficiency by providing the tools and support they need to thrive. Through our housing initiatives, we've provided housing for over 150 sponsored families who were previously living in plastic shelters or on the streets, and restored more than 80 homes in Ethiopia's Afar region, offering safety, dignity, and a fresh start for those who need it most.

WEF has expanded education access by building a school in rural Abilti-Jimma, launching Knowledge Centers with a library and computer lab, providing over 300 scholarships and 500 laptops, and supporting students throughout their academic journey—resulting in 60% of our families having first-generation college graduates.

WEF has helped over 200 family members meet their basic necessities, secure well-paying jobs, creating long-term stability and opportunity. We've also empowered more than 65 single mothers through skills training programs, enabling them to become confident, self-sufficient providers for their families.

Through our commitment to healthcare access, WEF has delivered over USD 900,000 worth of medical supplies and equipment, including wheelchairs and essential materials to Gondar University, USD 250,000 in aid to the Ethiopian Ministry of Health, and USD 500,000 worth of medical equipments to Dabre Berhan Hospital, bringing critical resources to communities in need.
