

JOB DESCRIPTION

Position: Facilities Engineer (Electrical)

Clearance: US Citizenship

Shift: Full-Time, 4/10's, Onsite

Location: Grand Prairie, TX

Grit Government Solutions is currently looking for a Facilities Engineer for its Customer in Grand Prairie, TX.

Job Description:

This Facilities Engineer role plans designs and oversees the reconfiguration, maintenance, and alteration of equipment, machinery, buildings, structures, and other facilities. Gathers and reviews data concerning facility or equipment specifications, company or government restrictions, required completion date, and construction feasibility. Coordinates with architecture/engineering firms in developing design criteria and preparing layout and detail drawings. Prepares bid sheets and contracts for construction and facilities acquisition. Reviews and estimates design costs including equipment, installation, labor, materials, preparation, and other related costs. Inspects or directs the inspection of construction and installation progress to ensure conformance to established drawings, specifications, and schedules.

Basic Qualifications:

- Bachelor's degree from an accredited college in Electrical Engineering or related degree with a minimum of three years professional experience
- Ability to read and execute engineering drawings and specifications with a strong understanding of CAD systems
- Industrial or manufacturing facilities design experience
