

Job Title: Water Resources Engineering Associate II

Position Number J-L4S5KI

Grit Government Solutions is looking for a qualified Water Resources Engineering Associate II to work at our customer's facility located in Orlando, FL.

Utilizing production software and developing impact studies, cost analyses, and design requirements; leading data collection efforts; preparing portions of project documents; editing specifications and discipline reports; preparing drawings, visual aids, and presentations; performing as-needed field reviews and observations of ongoing construction projects; and performing research and investigations to support development of proposed engineering applications.

Must Have:

- Have a bachelor's degree in engineering from an accredited program and three years relevant experience, or an equivalent combination of education and experience. EI strongly preferred.
- Be knowledgeable around applicable federal, state and local codes, criteria, regulations, and ordinances.
- Be proficient in production software and construction document production.
- Have a passion for engineering and a willingness to grow and learn.
- Possess strong oral and written communication skills and have the ability to effectively interact with and build strong relationships with clients, customers, contractors, team members, and other key stakeholders.
