

Job Title: Network Engineer

Location: Chantilly, VA

Position Number: J-T66SUP

Grit Government Solutions is looking for a Network Engineer (TS/SCI FSP), for its customer at Chantilly, VA

Job Details:

Grit Government Solutions is seeking an experienced Network Engineer (TS/SCI FSP), that will be responsible for managing and maintaining the organization's complex and secure network infrastructure. Must have at least 5 years of experience with configuring Cisco IOS and/or Cisco NX-OS in a datacenter environment including experience configuring VLANs, Routing, and security settings. Experience in top of rack configurations and storage area network configuration is preferred but not required. Has experience with Cisco implementations and can optimize network processing and operations. Ability to work independently as well as be a part of an agile team to transform the client's hybrid cloud platform.

Required Skills:

Minimum of 5 years of experience with:

- Configuring Cisco IOS and/or Cisco NX-OS in a data center environment
- Experience with VLANs, routing and security settings
- Cisco implementations, network processing and operations
