## WEXFORD LANDING UPDATE

Hello folks. We hope everyone is doing well in spite of the Pandemic we are experiencing. If not for Amazon and endless home Projects Chris would have run me off by now. But I believe we can all look forward to a great year ahead. Our residents have a few extra miles to go to Aiken and our airpark is quieter than it has ever been with the 302-bridge closed. The State maintains a February 2022 forecast for the new bridge. We are encouraging them to maintain the detour routes as they are questionably safe in some areas. Our SC State House Representative Bill Taylor would benefit from hearing from everyone regarding the impact of the bridge work. Projects during a Pandemic are challenging at all levels and we salute our new Residents who are getting on with their new homes during this time. We want to thank everyone for getting their HOA fees in by the end of March, in response to a paperless notification process no less! One last update is we are still looking for the formal Aiken Electric CO Op response on the Burkelo ROW and overhead line issues. They verbally stated it would cost the HOA \$40K to bury the line in the correct ROW. More to come.

We hope your skies are blue and smooth!  
Keep your selves safe!

Tommy Butler, President WL HOA

## NEW OPTIONS FOR INTERNET SERVICE!

Aiken Electric Cooperative is bringing high-speed fiberoptic internet service to the Wagener area, beginning in June 2021. To sign up for service, go to [carolinacconnect.com](http://carolinacconnect.com) and register.

## MEET THE NEIGHBORS : THE KOSTERS

Gail and Klaas Koster bought their property in 2015 after carefully researching the lower 48 for a Goldilocks location that does not get hurricanes, tornados, droughts, flooding, or blizzards AND has homes on a lake with an airstrip. You'd be surprised how few places qualified! Wexford Landing has worked out very well and even allows Klaas to scratch his farming itch - he will try his hand at hay baling this summer. This is likely to turn into a community event: keeping his very old baler running will take all the mechanical and welding help he can get! They continue to live in Houston until Klaas retires from his job as Chief Geophysicist at Occidental. Meanwhile, he is making the most of working-from-home during Covid with satellite internet on the farm, but it is slow going. Gail has a JD degree from LSU and clerked at the Supreme Court of Louisiana, but no longer practices law. Klaas got his PPL in Perth, Australia and just passed the 1,000 hours PIC mark. They use their Maule to commute - a long day flying, but it beats the 1,000-mile drive! Their five kids all graduated, found jobs, and live in San Diego, Houston, and London. Gail is looking forward to expanding the family with dogs and other animals.

Frosty fields and a sunrise view of the lake by the Koster's home this winter.

## HEADED TO THE CITADEL!

Jonathan Self, with the never-ending support of his family, has earned a multi-year scholarship to The Citadel. We all are proud of Jonathan and know he is up to the challenging but rewarding opportunity he has been afforded!

Jonathan Self, with proud grandparents Leonard and Kathy Self

## WEXFORD WIVES CLUB

The Wexford Wives gathered for a socially distant Christmas get-together on the Smith's screen porch. We enjoyed catching up and welcomed new friends. Thanks to Karen for hosting!

The Wexford Wives have been working hard to keep in touch during the pandemic. Hopefully, we will soon be able to start planning outings again. If you would like to join us at our get-togethers (virtual or in-person), just send your preferred phone and/or email to Chris. at the email to which the newsletter is attached.

## Upcoming 2021 Adopt-a-Highway Pick Up Dates

- May 15
- August 14
- November 6

## Next Wexford Landing HOA Meeting:

October 2021 (Zoom Info TBA)
