AIRSTRIp UPDATE

We took soil samples along the airstrip
this year, and had 3000 pounds of
fertilizer spread to help the turf develop.

2025 ADOPT-A-HIGHWAY PICK UP DATES

August 23
November 22
(Weather Permitting)

WEXFORD LANDING'S NEWEST PILOT

Congratulations to Carson Colmer on
finishing his training and getting his
private pilot's license. Well done Carson!

EMERGENCY LANDING INCIDENT

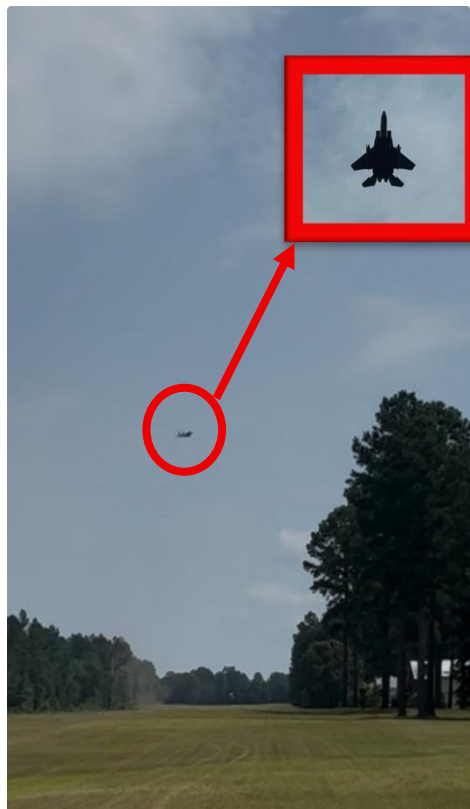

On a recent Sunday afternoon, a single
engine plane made an emergency
landing in the pasture north of Wexford
Landing. Thankfully, there were no
injuries. A good Samaritan from our
community helped tow the plane to a
safe location and tie it down until the
owners could arrange to collect it.

TIMBER CUTTING AT THE WINDSOCK

Our neighbors on the west side of the
airstrip recently had their timber thinned
out and were gracious to take out some
trees that were encroaching on the west
taxiway, and trees that were too close to
the windsock. The result is a significant
improvement to the windsock function
and the west taxiway.
