It's only in the owner's lush landscape, open, gorgeous dining just off bedroom and spa custom landscaped terrace bath as well as garage level Award winning

A MESSAGE FROM THE SELLERS

What we will miss most about our beautiful home in the countryside.

Some of our favorite memories are of sitting in the sun room off the kitchen and enjoying nature's wonders happening outside the windows. Each season has its own unique splendor; from flowers in the spring to colorful foliage in the fall. We also have enjoyed the picturesque, lit rock patio and fire pit - perfect for an evening toasting marshmallows with family and friends.

This house has truly been a home of joy for our family. We've enjoyed relocating the laundry room upstairs and having the convenience of a designated mud room just inside the garage - great for dropping your shopping bags or backpacks. The master suite with its cozy sitting room (including a double sided fireplace) and spa like bathroom provides a relaxing retreat at the end of a busy day.

The town of Milton will always have a special place in our hearts. It is a vibrant, close knit community that offers year round events and family friendly activities. Ball Memorial Park is just down the street and has a peaceful wooded walkway, play equipment and extensive sports facilities. This home is conveniently located to all that Milton has to offer - excellent schools, a variety of shopping options and a myriad of outdoor adventures. We truly hope that this house will become a haven for you and yours.

- 4 Bedrooms
 - 5 Bathrooms
 - Main Floor Bed & Bath
 - 1.06 Acres with Fire Pit
 - Mudroom
 - Butler's Pantry
