

# #DRW POISE / FEB 23

## Welcome to 2023!

Welcome to a new year at #DRW! Thank you for your continuous support as always. As #DRW turns 8 years old this year, we are grateful and proud to be providing a wholesome dance education to young children and adults of all ages throughout these years. We look forward to having more join in and be part of our dance family! We've had plenty of events, competitions and activities in 2022 and let's recall these special events and moments!

### RAD EXAM 2022

The Royal Academy of Dance (RAD) Exam took place in April, and students put on their best for this big day! We are honoured to have our students maintain a high standard as we achieved a **100% Distinctions and High Merit**. Great things come from your hard work, patience and perseverance! Well done for doing such a great job!

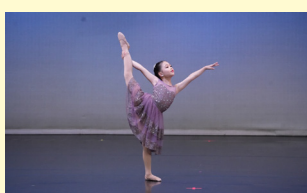

Our heartfelt gratitude to parents for supporting your child through their dance education. We hope to continue to serve you better in 2023! Thank you very much!

### KPOP MV, Hip Hop & Robotics

Our participants have enjoyed our specially curated classes for our June Holiday programme 2022. Young and earnest, these participants had fun learning KPOP MV, Basic Hip Hop, and introduction to coding with robotics. The children were proud to create some cool robots! Do like and follow our Facebook for more of such exciting programmes that you won't want to miss.

### Competitions

Our dancers competed in the following online and physical dance competitions: Embellish dance competition (online), Starlight dance competition (online), Singapore International Dance Challenge (SIDC) (physical) and Youth Art Festival (YAF) (physical). These competitions provide our young dancers with invaluable training and exposure and our young dancers have worked very hard towards excellence in their competition dance routines. Here are the results:

**Embellish dance competition (online)**  
Solo - 3rd place

**Singapore International Dance Challenge (SIDC)**  
Trio - 1st place  
Ohana - Champion

**Starlight dance competition (online)**  
Solo - 1st & 2nd place

**Youth Art Festival (YAF)**  
Solo - x 2 Bronze  
Trio - Silver  
Ensemble - Bronze and Sponsorship Award

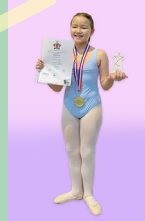

## Open House and RAD award ceremony

Our dance school's open house took place in Sep 2022 after a 2 year break and this is a great chance for parents to watch your child's showcase and interact with us. In addition, an award ceremony was held to congratulate students for their level promotion and outstanding performance for the Royal Academy of Dance (RAD) Exam. Congratulations!

### Top 3

We would also like to congratulate our Top 3 RAD Exam achievers: (From left to right) Grace Wightman, Claire Chang and Reanne King. Well done!

## Filmed Concert: Around the World

Our very own concert titled Around the World was planned at the start of the year 2022 before the pandemic restrictions were lifted. Unfortunately, most of the concert venues were fully booked once our government eased the restrictions. Determined to hold our concert, our management team decided to have the dance concert filmed instead during the month of September and November in our very own studio! Students have to conquer new dance steps and moves, memorising them, work on rhythm and poise and even overcome their shyness. Our heartiest congratulations to our performers for showing great enthusiasm, dedication and team work! All of you were amazing. We would also like to thank teachers for their amazing choreography as well and all who have made this concert a success! We hope you will enjoy the concert as much as we do. If circumstances allow, we might be able to have a physical concert one day, which be will be confirmed at a later date.

## New classes with our community partners

We are pleased to offer a myriad of classes for children and adults at Fernvale CC, Fengshan CC and Bedok Reservoir-Punggol Vale RC. Do look out for our different dance courses like Ballet, Hip Hop, Contemporary and Creative Dance. In time to come, we hope to provide free dance classes for needy students living in the neighbourhood. This could benefit needy students to realise their potential beyond academia. Do check out the [www.onePa.gov.sg](http://www.onePa.gov.sg) website for more of our courses!
