

BUILT TO BE SEEN.

DESIGNED TO DISAPPEAR.

THE NUVUE SEE-THROUGH LED POSTERS
DYNAMIC, TRANSPARENT, AND IMPOSSIBLE TO IGNORE

MAKE YOUR WINDOWS WORK HARDER

TRADITIONAL LCD WINDOW DISPLAYS WEREN'T BUILT FOR THIS.

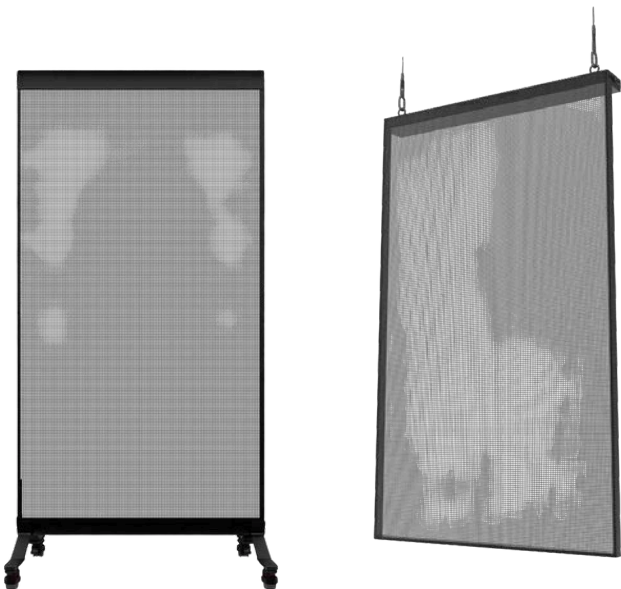

QSR storefront windows create one of the most challenging environments for traditional LCD displays.

Constant sunlight, UV exposure, and heat buildup can lead to dark spots, panel damage, reduced brightness, and shortened product lifespan.

The NUVUE Transparent LED Poster delivers bright, dynamic content while allowing heat and light to pass through the display, reducing many of the common issues associated with traditional window-facing LCD screens.

The result is bold visual impact without sacrificing visibility, natural light, or storefront aesthetics.

- **3500 Nits High Brightness**
- **Transparent LED Design**
- **True 55" Portrait 9:16 Format**
- **Designed for Window-Facing Environments**
- **Ultra Slim 1" Depth**
- **Hanging or Floor Stand Installation**
- **Novastar + Wi-Fi Included**

Heat-Friendly Design

Allows airflow and light transmission compared to traditional enclosed LCD panels.

High Brightness Visibility

3500 nit output designed for bright storefront environments.

Transparent Presentation

Maintain visibility into the restaurant while still delivering dynamic promotions.

True Digital Poster Format

Matches familiar 55" portrait advertising layouts used across QSR environments.
