

Red	+	Yellow	=	Orange
Yellow	+	Blue	=	Green
Blue	+	Red	=	Purple

Red	+	White	=	Pink
Yellow	+	White	=	Light Yellow
Blue	+	White	=	Light Blue

Orange	+	White	=	Light Orange
Green	+	White	=	Light Green
Purple	+	White	=	Light Purple

Black

White

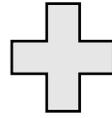

Grey

Yellow

Red

Blue

Brown

Did you know that with only 5 simple colours of paint you can make any colour you want? All you need is RED, YELLOW, BLUE, WHITE AND BLACK.

Try it out using the boxes above as a guide.

The most important thing is to use only 2 colours at a time, plus white if you want lighter colours, unless you want to make many shades of brown! It is fun to make up your own colours.

You can change the quantity of paint you add to one of the others and this will give you even more colours.

For example start only adding a tiny bit of RED to YELLOW and mix it.

Next add a little bit more RED and mix it.

Add a little more RED and you will have 3 very different types of?

Yes ORANGE!

If you add WHITE to them, you will get 3 different PALE ORANGES.

Test it all out, it is fun and you will create fantastic pictures with lots of colours.
