# 4 Steps to Healthy Skin

GLYMED  
—CANADA—

## step 1: cleanse

Removes oil, dead skin cells and environmental pollutants-debris which form free radicals while preparing your skin to receive vital nutrients contained in the Treat and Balance steps.

## step 2: treat

Delivers vital and effective ingredients to treat your specific condition and help restore, replenish and revitalize your skin.

## step 3: balance

Uses targeted ingredients to revive your skin's ability to repair and renew for a nourished, healthy glow.

## step 4: protect

Applying Photo-Age Protection ensures your skin's ability to grow and build healthy skin cells while shielding your skin from harmful environmental pollutants, debris and the sun's damaging UVA/UVB rays.

GlyMed Plus  
Signature Double  
Cleanse

The Double Cleanse is incorporated into all clinical treatments and is recommended for evening home care routines to ensure all makeup is removed from the skin and to properly prepare the skin to receive the active ingredients found within the treat and balance steps.

The first cleanse utilizes a creamy cleanser to instantly dissolve oil, makeup, dirt and debris.

The second cleanse utilizes a cleanser with active ingredients including for example Glycolic Acid or Salicylic Acid that focuses on cleansing the skin and slightly lowers the skin's pH so the active treatment products can work more effectively.

Gentle Facial Wash with  
BIOCELL-sc  
GRX1

Gentle Facial Wash with BIOCELL-sc is a gentle, yet effective soap-free cleanser for deep cleaning. Enriched with 15% ultra-hydrating AHAs that offer light exfoliation, beneficial for skin conditions such as acne, hyperpigmentation and is excellent to prepare the skin for in-clinic procedures.
