... Hëlenbach ...

Hëlenbach are a no-nonsense, riff-fuelled, heavy rock powerhouse, infused with a rich blend of 80's metal. Their pounding, original tracks are forged with an energy that is guaranteed to get heads banging from the start.

Since officially forming, back in November 2024, they have rocked numerous stages across the south-west of England. From Chard Rock Festival, to The Thekla in Bristol, their adrenaline induced performances have continued to set venues ablaze.

Their tracks have been played on Rock Radio UK, Apple Radio, Primordial Radio and other national & global radio stations. They currently have 8000+ streams on Spotify and are continuing to push their music out to the masses.
