Partners in Technology:

Communications Virtual Services (CVS) assists all organizations in obtaining office technology and infrastructure solutions at a reasonable price.

We serve:
Institutional clients - Municipalities - Non-profits - Commercial

We lay the groundwork for greatness, creating a "Shining City on a Hill" with well-managed office technology.

You truly do get what you pay for; and since our prices are aggressively negotiated, you may end up saving money!

Great performance and price point aside, satisfied customers cannot exist without great service.

We work on our Three A's:
Availability - Accessibility - Accountability

How can we ensure that each and every time? We use the same technologies we sell to operate our business.
