North Carolina, South Carolina, Virginia, Tennessee, Ohio

**Spex•Crete™ Water Based Bonding Agent**

was applied to the concrete substrate.

**Spex•Crete™ 350 Super Set** was then mixed and pumped using a Strong Super 80 to level up 2.5". It was then capped with **USG Levelrock® 2500** at 1".

**General Contractor**

Davie Construction Co.

Superintendent: Johnathon Smith  
336-940-6600

**Advantages:** Pumpable ultra lightweight floor system that conforms and contours to the uneven subfloor to create a solid base for a gypsum leveler.
