Spex•Crete™ Product:
Spex•Lite® 6724 Lightweight Additive

Purpose for Use: Depressed low spots of 1-3/8" between column bays needed to be filled to allow proper level floors for the lab casework and equipment.

Spex•Lite® 6724 Lightweight Additive was mixed with Uzin NC 157 to make a lightweight deep fill underlayment.

“Product works as advertised and will definitely be used again by Anderson...”
Joe McKeown – Vice President
Anderson Commercial Flooring
