A TRADITIONAL CONSERVATIVE STATE!

Only 20% of conservatives have turned out for midterm elections.

The Party of “Progressive” Politics have resources pouring in to converge on our beautiful Capital City and College Town of Boise.

Other cities and states ran by “Progressive” Politics, like Portland, Seattle, and California, are in chaos with anarchy, defund-the-police movements, and wasting tax-payers money.

All levels of law enforcement are abandoning their careers in alarming numbers.

People moving here from “Progressive” Political places tell us, “Don’t let this happen here!”

**If they’re NOT in support of Law Enforcement,
VOTE THEM OUT. *They are a big part of the problem.***

**Portland, OR -
“Protesters in Portland
Topple Statues of
Lincoln and Roosevelt”**

“Not To Be Restored.”

New York Times September 30, 2021

Boise, ID –

“Vandalizing the “Seated Lincoln” statue in Julia Davis Park in Boise. Police said the statue was left with feces and signs.” ‘A Black Lives Matter organizer who is a former Boise State University professor was arrested by police in Boise.’ Associated Press March 26, 2021

LET YOUR FRIENDS
& FAMILY KNOW**

NOVEMBER 2ND

IS TIME TO VOTE AND TAKE A STAND! www.TheAmericanExpedition.org

Are We Paying Attention to Education?

When Politicians and Public Education take a hostile position towards Law Enforcement, communities become vulnerable to unrest and anarchy. That is why our protection against it is called the "Thin Blue Line". News Broadcasts and Celebrities are also a prominent influence with the delivery of toxic lies or leaving out important facts in their presentations. Did you know that Derek Chauvin had his day in court regarding the death of George Floyd, but he was not charged with a crime based on racism? The Minnesota AG said there was [no evidence for racism]. Yet, based on incomplete information, **Critical Race Theory Ideology erupted into anarchy** in communities dominated by the Party of "Progressive" Politics. WHY?

How is Higher Education Doing?

Support For Law Enforcement on Campus - Thin Blue Line \$10M Lawsuit

'A Boise coffee shop is taking Boise State University to court, alleging it closed due to what it calls the university's "**aggressive social justice agenda**." ...material information consisted of, among other things, the animosity and rancor directed toward the Plaintiffs based on their beliefs and expression, and that Defendants directly (or by tacit approval) fomented on the BSU campus." www.boisedev.com 10/4/21

"I think that we have been caught off guard in understanding how the education systems work."

Boise State University Professor, Dr. Scott Yenor, Lt. Governor's Education Task Force Meeting 5/27/21

"Civilization and Social Justice Ideology are in endless conflict with one another. You can't have both. You have to choose."

Public School Teachers and Politicians send their kids to Private Schools and Homeschool Networks.

Why aren't we? Good, Hard-Working Teachers that were in the Public School System have started their own schools and **getting paid better**. The Lt. Governor's Task Force, which included educators, made the recommendation to the Legislature which reads, "With an ESA, each parent/legal guardian of a school-aged child receives a deposit of public funds into government authorized savings accounts — accessible via debit card — with restricted uses."

ON THE BALLOT:

~~ADA County Education -
\$14M supplemental levy~~

Wouldn't this be better spent on those teachers starting their own schools?
