

To our guests,

First and foremost, I want to express my sincere concern for everyone who has been impacted by the coronavirus (COVID-19).

For more than 30 years Peppino's Pizzeria has been dedicated to genuine hospitality and taking great care of our so they can take great care of you.

The health and wellbeing of our family and guests is always my number one concern, and I wanted to share with you some actions we have taken to ensure your continued safety during this time of uncertainty.

We are continuing to maintain our high level of cleanliness and sanitation practices.

You may notice some changes the next time you dine with us as precautionary measures. Here are a few examples:

- We have transitioned to silverware rolled in paper napkins to keep our utensils from being out in the open.
- We have also removed all condiments from our tables and have made them available upon guest request.
- At the end of your meal should you prefer to wrap-up your own leftovers at your table, our staff will gladly provide you with containers.
- We're expanding our normal use of sanitizer to clean our tables after each party dines, to also include sanitizing our menus, any condiments that were requested and our new credit card handhelds.
- We as always will be serving beverages without straws and offering wrapped straws upon request.
- Hourly sanitization of high-touch items like door handles and switches, etc..

I care deeply about our Peppino's Pizzeria Family. They are what makes our restaurant so special and I am ensuring that they have the information they need to remain healthy and are instructing them to stay home if they're not feeling well and will provide paid time off during their illness.

We have been following the guidance of the CDC and our local health departments and will continue to do so throughout this evolving situation.

I want to thank you for your continued support during these uncertain times. We will be here to serve your needs as you dine in, order To-Go or have it delivered by one of our partners Doordash or GrubHub.

Sincerely,

Mario Milanese
