## General Rules (cont'd)

# TIPS TO PROTECT YOUR HORSE AWAY FROM HOME

- Stall Labels must be completed for each horse, including the horse name and 24-hour emergency contact information, and place on the horse's stall door.
- You must check your horse's temperature twice a day and record it on the Horse Temperature Chart. A normal horse temperature is between 37.2-38.3 C. Any temperature over 38.8 C (102 F) must be reported to the horse show office and/or horse show steward or veterinarian.
- Do not share feed/water containers or buckets between horses and do not use communal water troughs. While filling a bucket, do not let the hose end touch the bucket or the water in a bucket.
- Sharing tack and equipment puts horses at risk and is not recommended. If tack/equipment must be used by multiple horses, be sure to clean/disinfect it between uses by different horses.
- Observe good hygiene around all horses on the grounds, and especially after handling a teammate's horse prior to touching your horse.
- Wash hands immediately with soap and water, or use disinfectant hand solution after handling horses, especially after contact with the mouth, nose or feces.
- Please use hand sanitizers and indicate the importance of their use to your friends, family and casual visitors.
- All stalls have been cleaned of all manure and bedding. Feel free to sanitize your assigned stall prior to bringing your horse in.
- Do not allow nose-to-nose contact between horses.
- Do not permit your horse to lick or sniff surfaces in common areas. If this does occur, please use a disinfectant wipe on the area.
- If sharing a wheelbarrow, please do not bring it into your horse's stall. Leave it in the aisle.
- Please dispose of manure in designated areas only. Do not put trash in manure pile.
- If your horse develops a fever or signs of illness, contact the show veterinarian or steward immediately.
- Following the competition, it is recommended that all horses be isolated at their home facility for 21 days prior to reintroduction to other horses. If this is not possible, be sure to observe all horses carefully for 21 days.
- Following the competition, all horses should have temperatures taken twice a day for four days, and be observed for abnormal behavior and signs of cough, nasal discharge, discomfort or lameness.
- **In the event that a horse returning home following the horse show becomes sick PLEASE notify the Competition Organizer. This is a precautionary request in the unlikely event of a potentially contagious disease event.**

The Angelstone Tournaments Venue is located near the tranquil village of Rockwood, Ontario, located less than a half hour's drive northwest of Toronto's Pearson International Airport. Our visitors from the United States can reach the venue through the Buffalo, Detroit and Watertown border crossings.

Since 2010, the venue has grown to become one of North America's premier Equestrian Show Jumping Tournament sites and is now home to the Caledon Dressage series. Each passing year brings new additions to the property and in 2013, we expanded our All Weather footing in multiple rings, featured in our Main Stadium, ESI Hunter ring, Astalos ring and 3 warm-up rings. A total of 5 competition rings that stand up to both rainstorms and drought conditions means that horses competing at the venue can be guaranteed perfect footing regardless of the seasonal weather.

Expanding our services this year will also mean the introduction of all new stabling for 1000 horses, a new campground for those competitors with trailers who prefer to live on-site during the Tournament.

Spectators and sponsors will appreciate the attention to detail prevalent throughout the venue's hospitality zones, including décor from award winning designers. The view of the action is second to none. There is no better venue to take in the action of the sport while surrounded by an elite level of personal service and amenities.

We look forward to the opportunity of welcoming you to the venue.
