

Chelan County Fire District #6

FIRE LEVY

Providing Fire & EMS Services To Your Family

“Seconds Count” in Protecting Your Lives & Property

We are 100% funded by your local property taxes (we receive no state or federal tax funding).

Established in 1955, we have never received a tax increase from our voters. (Our current levy rate is lower than 98% of all Fire Districts in Washington State.)

Our current financial situation has resulted in suspension of repairs to our fire trucks and firefighting/EMS equipment, fire stations (and diminished training opportunities for our firefighters).

Passage of this levy will improve our ability to provide your family with the 9-1-1 services you deserve.

Chelan County Fire District #6 **FIRE LEVY**

Providing Fire & EMS Services To Your Family

This levy will ensure that we can continue to provide and enhance Fire & EMS services to your family. It authorizes the fire district to establish a levy rate of \$1.40/\$1,000 assessed value.

This critical levy funding enables us to respond to all of your 9-1-1 calls including house fires, wildland fires, medical emergencies and motor vehicle accidents.
