# ABOUT US

*REST ASSURED THAT YOU WILL ACHIEVE THE GOAL YOU SET.*

We are committed to creating and organizing professional parties and events that exceed your expectations. Our goal is to continue to design and manage high-quality events that help you create an exceptional event.

We listen to your vision of the event and ask relevant questions to ensure we understand your goals, in line with the timeframe, event budget and your needs. Our on-site coordinators work with you as a partner to make your vision for the event a reality, whether you want to deal with one aspect of the event or fully plan and manage it, our goal is to deliver a high-quality event that is a positive reflection of your company.

Do we stop as soon as we plan the event? No, we provide logistics for the day of the event! Our experienced staff is there to meet sudden challenges quickly and technically.

# MISSION / VISION

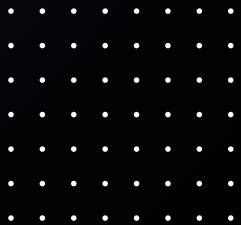

Our Mission is to revolutionize through hardware that deliver increased productivity. In AM AUDIO & VISUAL, we understand the importance of futuristic technology exposure on exhibition, shows, events etc.

Our broad production experience and reliable network of suppliers ensures efficient and flawless stand development. We offer the full spectrum of solutions and services for event planners.

We always treat our customers to the level of personal attention that they deserve and expect.

Our Vision in AM AUDIO & VISUAL, to thrive to guide our clients with passion, creativity and expertise. Our team has exceptional flair, cultivating a transformative crowd journey using breathtaking combos, exciting light and sound effects, and exciting performers.

producing the highest quality events that not only set the standard for event production, but also set the trend for the industry

### **Lighting**

We offer high quality automatic lighting systems. These include but are not limited to LED lights, moving lights and control desks.

### **Video**

We provide all kinds of video equipment, including LED displays, projectors, and video switches. In addition to creating video content for entertainment and advertising events.

### **Audio**

We provide professional audio equipment and services including mixing controllers, amplifiers, microphones, speakers, playback devices, recorders and much more.

### **Interactive Screen**

When it comes to touch screen monitors and interactive screens, you need two things: exceptional quality and effortless ease-of-use. In the meeting room, in the studio, or in the classroom, interactive screens give you a true Pen-on-Paper experience which lets everyone use them naturally and intuitively.

### **Extended Reality**

Extended Reality is an emerging umbrella term for all of the immersive technologies we have now (AR, VR, and MR). XR "expands" our reality by either mixing the virtual and "real" worlds with different levels of interaction or creating a fully immersive experience.

# LIGHTING

We offer high quality automatic lighting systems. These include but are not limited to LED lights, moving lights and control desks.

# FOS/4

Over a decade of research has been realized in the fos/4 panels. It's time to give your viewers the most realistic environments and skin tones possible. Why fix in postproduction what you can realize in production? fos/4 is available in both a tunable white light Daylight HDR array and a full color Lustr X8 array.

Fresnels have been around since the beginning of lighting design. These incandescent workhorse fixtures are known for their smooth wash, adjustable zoom capabilities, and incredible brightness. With the addition of LEDs, Fresnels became more about the technology and less about beautiful light. You were left with a fixture that was as described – LED fixtures with a Fresnel lens.

# SOURCE FOUR LED SERIES 3

Over a decade of research comes together for the market that has inspired ETC for over 45 years. The Source Four LED Series 3 brings the brightest light to the stage with the Lustr X8 array for the most nuanced colors and the Daylight HDR array for tunable white light.

We've added wireless DMX/RDM by integrating City Theatrical's Multiverse® protocol, and easy NFC configuration using your mobile device and ETC's Set Light app.

Get the brightness you need from every distance, the color you've been craving, and the control you deserve for the most efficient workflow. Like all ETC fixtures, Series 3 is backed by an unmatched industry warranty.

# ARCSYSTEM NAVIS

## Installation made easy

The design of the Navis 100 luminaire covers every detail for seamless installation. Three wind-down clamps cater to ceiling thickness from 0.5 to 20 mm. Make any adjustments you need with a 30-degree tilt that doesn't break the ceiling plane, a 360-degree rotation to focus light any way, and a tool-operated pan/tilt lock. Simply pop the magnetic trim plate back on the luminaire once your installation is complete for a sleek finish.

# ETC

## AUTOMATED LIGHTING

### LONESTAR

Built for those who want maximum performance from a mid-sized automated framing fixture, Lonestar is the most compact High End Systems framing fixture yet, without sacrificing any features or output. Nine rotating patterns, animation wheel, plus dual frosts and prisms produce limitless morphing and texture layering options.

Full curtain framing shutters  
15,400 lumen output  
CMY mixing, linear CTO  
plus fixed color wheel

### SOLA SILENT

SolaFrame Studio and SolaFrame Theatre are fanless, convection-cooled automated luminaires that prioritize high quality features, spectral output, and above all silence. With efficient operation, exquisite projection control and beautiful color rendering, these silent fixtures will quietly steal the scene!

Silent operation  
Full curtain framing shutter  
High CRI engine

# ETC

## AUTOMATED LIGHTING

### SOLA 3000

With incredible bright white LED engines and a full assortment of effects and color options, SolaFrame 3000, SolaSpot 3000, and SolaHyBeam 3000 give designers the ultimate power tools to light the world's largest performance environments.

Ultra-Bright and High Fidelity models  
37,000 lumen output  
Framing, spot, and hybrid options

### RELEVÉ SPOT

An automated fixture designed specifically for the theatre, Relevé uses the calibrated ColorSource Deep Blue four-color additive mixing system and offers brighter reds, more vibrant greens, and deeper blues than most event-focused automated luminaires.

Ani-gobo wheel  
Five position rotating gobo wheel  
Iris, frost, and zoom

# ETC

## AUTOMATED LIGHTING

### SOLA 750 & 1000

### EFFECTS

Featuring rich optical effects and beautiful colors from their bright white LED sources, High End Systems Sola 750 and Sola 1000 luminaires are designed with different output and feature sets for a wide variety of lighting duties.

- Ultra-Bright and High CRI models
- Sophisticated animation effects
- Iris, frost, and zoom

High End Systems' Effects Series fixtures are engineered for the designer who craves stunning new looks. Each luminaire is designed to bring unique visuals not seen a thousand times before, giving a bold new twist on classic effects lighting and beyond.

- Additive LED engine
- 2800 K - 8000 K color temperature
- Perfect for use on camera as face lights

**SUNDRAX**  
electronics

# SUNDRAX

## QULON MONARQ

Remote Architectural Lighting Processor.

## TRANSCIVERS, CONVERTERS & SPLITTERS

Waterproof units for architectural lighting control via DMX/ArtNet/sACN.

## TiMo FX

DIN-mount controllers and converters.

## SOFTWARE

Special software solutions for fast and powerful architectural lighting control.

## ADD-ONS & SENSORS

Supplement modules for telemetry data collection.

# BARCO

## F80-4K7

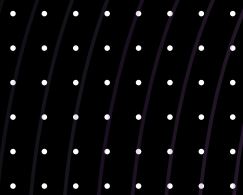

7,000 lumens, 4K UHD, DLP laser phosphor projector.

Stunning images with superb color performance.

Ultimate installation flexibility.

3D capable.

Silent operation.

## G100-W16

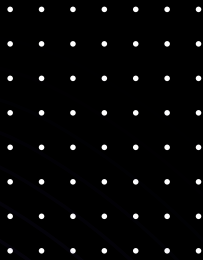

17,200 lumen, WUXGA, single-chip laser phosphor projector.

single-chip high-brightness projections.

up-to-date input capabilities & future-proof design.

full operational flexibility through wide lens range.

# SONY

## SONY LAUNCHES VENICE 2

### The Future Of Cinematography

Today Sony launched the new VENICE 2 Full-frame Digital Motion Picture Camera, building upon the strength of the original VENICE with new features including a compact design, internal recording and the option for two different sensors: the newly developed full-frame 8.6K sensor or the original 6K VENICE sensor.

A stylized, golden 'M' logo, likely representing a media or production company, positioned in the bottom right corner of the image.

## BLACKMAGIC URSA MINI PRO 4.6K G2

Get an amazing Super 35mm 4.6K sensor with 15 stops of dynamic range up to 120 fps or 2K at 300 fps! Includes features such as 3 x ND filters, Blackmagic RAW, USB-C external disk recording and more!

## BLACKMAGIC URSA MINI PRO 12K

Featuring a revolutionary 12K Super 35mm . 80 megapixel sensor with Generation 5 . Color.Science and 14 stops of dynamic . range, URSA Mini Pro 12K is designed for . high end feature film production.

# Panasonic

## AG-CX10 4K

AG-CX10 4K Compact Handheld Camcorder  
Compact Handheld Camcorder

## HC-X1500

HC-X1500 4K Pro Camcorder with 24X  
Optical Zoom and WiFi

# AUDIO

We provide professional audio equipment and services including mixing controllers, amplifiers, microphones, speakers, playback devices, recorders and much more.

# LUMENRADIO

## STARDUST

Eight Universe DMX/RDM transmitter with Ethernet, WiFi and Bluetooth.

## AURORA

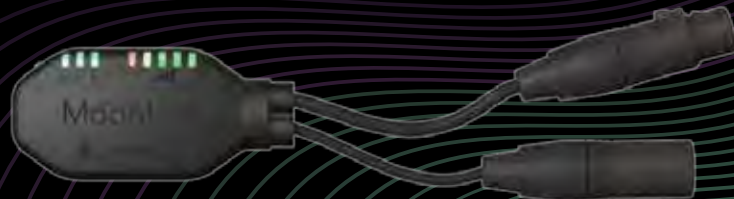

Single Universe DMX/RDM transceiver with WiFi and Bluetooth.

## LUNA

Single Universe DMX transceiver with Bluetooth.

## MOONLITE

Rechargeable CRMX transceiver with bluetooth connectivity.

# LUMENRADIO

## TiMo RX

Certified CRMX Receiver module.

## TiMoTwo

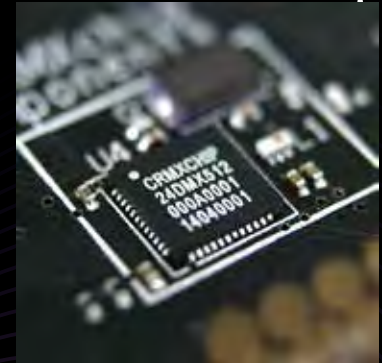

Certified CRMX Transceiver module with concurrent Bluetooth.

## TiMo FX

Certified CRMX Transceiver module.

## CRMXCHIP

CRMX Receiver chip

## AIRGLOW

Wireless-mesh outdoor lighting controller.

## W-MODBUS

Modbus RTU through reliable wireless mesh.

## MLE-N2

Mira Low Energy radio module for ultra-low power operation.

## MWA-N2

Mira Wide Area radio module for long-range operation.

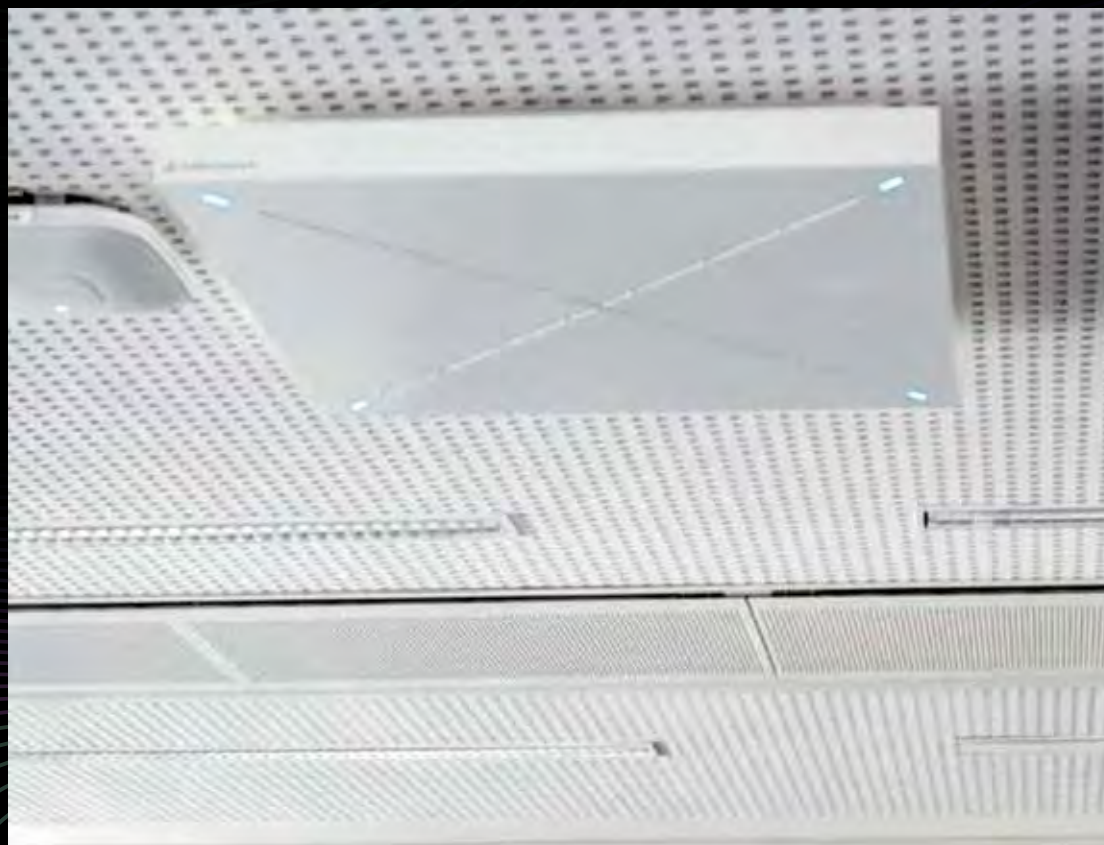

# SENNHEISER

## CEILING MICROPHONE WITH TRUVOICELIFT

### TeamConnect Ceiling 2

For 100% connectivity - Connect the TeamConnect Ceiling 2 ceiling microphone via analogue or digital DANTE™ audio outputs to any conference system. The flexible connection options make the meeting and conference microphone even more agile and applicable for many different situations.

# SENNHEISER

## SPEECHLINE DIGITAL WIRELESS

IT-optimized wireless micro-  
phonesystem for speech and  
lecture

## EW-D 835-S SET

Evolution Wireless Digital breaks  
the boundaries by providing  
more dynamic range than any  
wireless system currently on the  
market.

# SENNHEISER

## P SERIES

The P-Series from Renkus-Heinz represents the pinnacle of performance for compact point-source loudspeakers.

## P/PN SERIES (LEGACY)

PN12 and P12 Series Reference Point Arrays use advanced technology and application-driven engineering to bring live sound closer to the ultimate reference point: reality.

## VARIA-RN & RD

## CF/CFX SERIES (LEGACY)

Every CF/CFX Series loudspeaker system is designed to the highest standards of innovation and quality.

## DOWNFILLS (LEGACY)

# SENNHEISER

## PM & PF SERIES AMPLIFIER MODULES (LEGACY)

Renkus-Heinz were among the first in the industry to incorporate amplifiers within our loudspeakers. Close coupling the power and transducers within one enclosure allows us to eliminate the compromises required in rack mount amplifiers.

## SA SERIES AMPLIFIER MODULES

Designed and built in the USA, Renkus-Heinz SA Series represents a new and powerful technology designed to unify all Renkus-Heinz loudspeakers across connectivity and control platforms.

## STX SERIES (LEGACY)

STX Series loudspeaker systems create the most innovative, versatile, high-performance loudspeakers available.

## PN SERIES AMPLIFIERS MODULES (LEGACY)

# SOLID STATE LOGIC

## AWS DELTA

The AWS (Analogue Workstation System) reinvented the professional production console by combining classic SSL SuperAnalogue™ console technology with comprehensive DAW control hardware in a single work surface.

## ALPHA CHANNEL

All great sounding recordings have to start somewhere... With the classic combination of mic preamp, filter, EQ, dynamics, and A/D conversion, the Alpha Channel draws upon SSL's sonic legacy to provide an affordable analogue channel strip designed to provide the perfect front end to your DAW.

# SOLID STATE LOGIC

## SIGMA DELTA

The Sigma  $\delta$  is ideal for DAW users seeking the legendary big sound of an SSL console combined with the convenience of working in the box.

## ORIGIN ANGLE MID

As the latest in a long heritage of SSL studio mixing consoles, ORIGIN has traditional analogue studio workflow at its heart whilst providing the perfect partner for a modern DAW-driven 'hybrid' production studio.

# INTERACTIVE SCREEN

When it comes to touch screen monitors and interactive screens, you need two things: exceptional quality and effortless ease-of-use.

In the meeting room, in the studio, or in the classroom, interactive screens give you a true Pen-on-Paper experience which lets everyone use them naturally and intuitively.

# BARCO

## XTO.9-Q

0.9mm pixel pitch, high-res indoor LED display

## XT2.5-HB

2.5mm pixel pitch, high-res indoor LED display

## INFINIPIX™ NP100

Infinipix™ processor for LED displays.

## IEX1.2

Narrow pixel pitch, indoor LED displays with 1.2mm pixel pitch

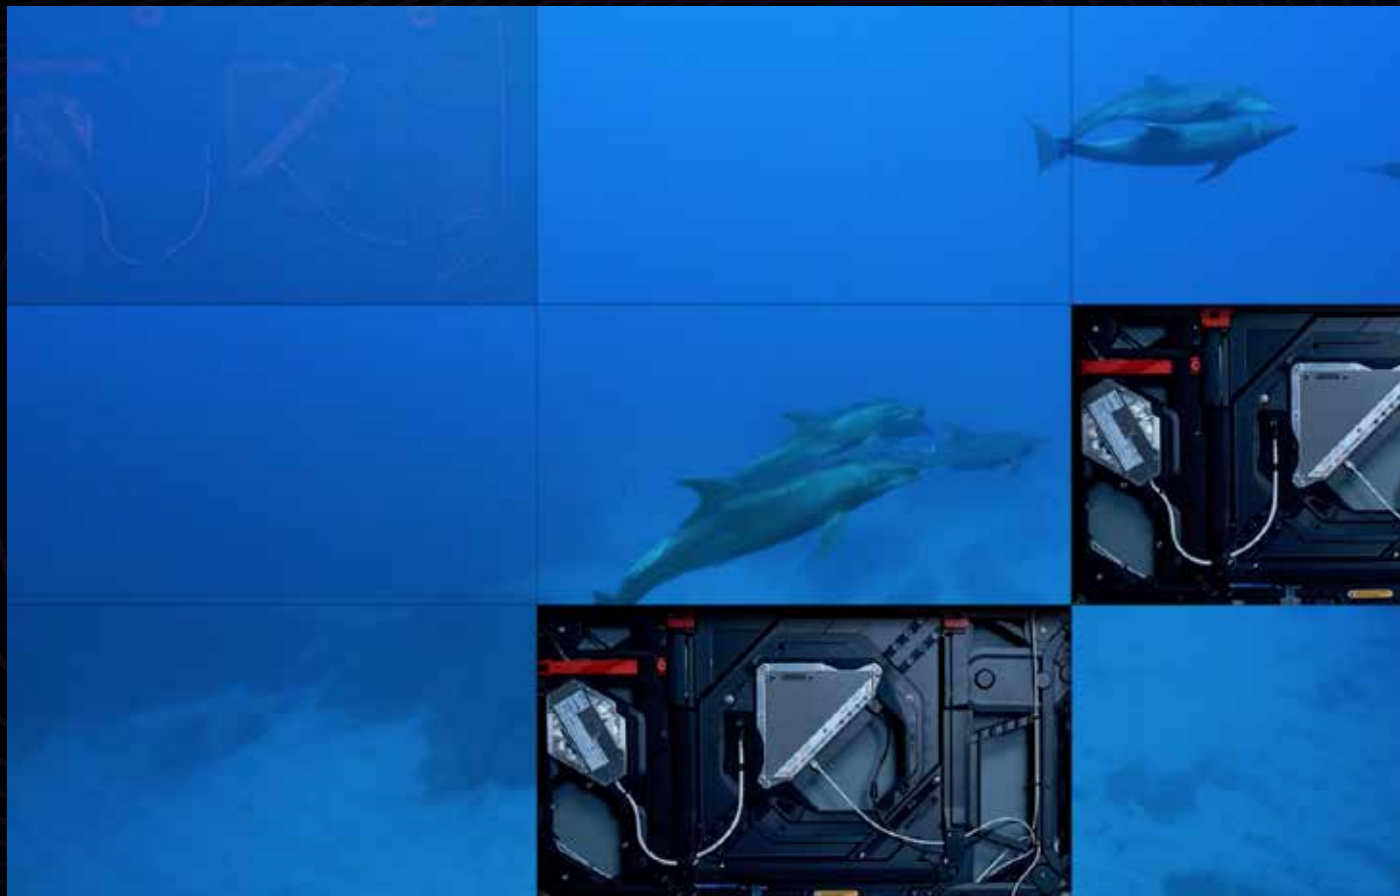

# BARCO

## BARCO UNISEE

Bezel-less design with NoGap technology, for high-brightness use.

Mounting structure with automatic alignment for ensured precision

Sense X automatic and continuous calibration

The BARCO logo consists of the word "BARCO" in white, uppercase, sans-serif font, centered within a red square.

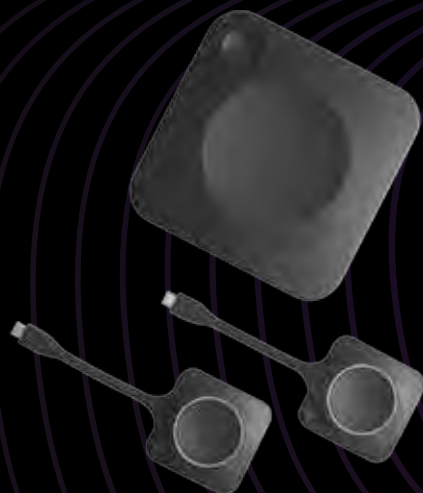

# BARCO

## CLICKSHARE CX-30

Full BYOD support.

Remote collaboration with  
Button or Desktop App.

Works with your device,  
conferencing platform & a  
wide range of AV peripherals.

## XDX-4K40

Pure RGB laser light  
source.

Brilliant image with native  
4K resolution and Rec.  
2020 color performance.

Modular design for cost-ef-  
fective serviceability.

## X2.8R

2.85mm pixel pitch, 1,200 nits  
true cross-rentable LED display.

## RGB LASER ODL-715

70" laser-lit rear-projection  
video walls for 24/7 control  
rooms

A stylized, gold-colored letter "M" logo.

# EXTENDED REALITY

Extended Reality is an emerging umbrella term for all of the immersive technologies we have now (AR, VR, and MR). XR "expands" our reality by either mixing the virtual and "real" worlds with different levels of interaction or creating a fully immersive experience.

# EXTENDED REALITY

## INTERACTIVE SPHERE

Interactive Visual Communication Sphere

# EXTENDED REALITY

The on-air graphics, used for many of live news and studio programming, are generated with the latest virtual set and tools. The live news studios' operations are handled by our products for studio automation system, ensuring synchronized, error-free, single-operator productions that combine live video with the graphics.

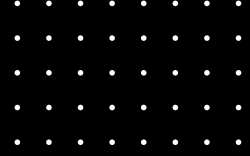

# EXTENDED REALITY

We provide the newest augmented reality platform for News broadcasters.

# EXTENDED REALITY

# TRAINING PROGRAM

**Before we customize your machine operator training program, we will visit your site to fully understand your operator training requirements. We deliver meaningful learning program for products with a training system that allows you to get full control on equipments, and to be aware of all aspects.**
