

KATTSAFE® Ladder Protector

The aluminum **KATTSAFE® Ladder Protector** is an OSHA-compliant and cost-effective controlled access and passive fall protection solution for a permanent rooftop access ladder. Featuring an innovative non-penetrating design, the **KATTSAFE® Ladder Protector** ensures the user is an OSHA compliant distance from the leading edge. Our **GWLCK Ladder Connection Kit Brackets** ensure a quick and easy installation to all **FIXFAST USA** ladders or any existing vertical fixed ladder.

The **KATTSAFE® Ladder Protector** comes completely boxed with our **GW390A Adjustable Self-Closing Gate**.

FEATURES

- Assembles in minutes
- Connects to any vertical fixed ladder
- Mill finished aluminum as standard, yellow option available
- In stock and ready to ship
- Includes a self-closing gate, providing a complete OSHA compliant package
