

**Completing this training will help you:**

**Increase your healing modalities**

**Heal yourself, loved ones & friends**

**Improve your service to your clients**

**Upskill yourself**

**Create a new career**

Vibrational Frequency healing maybe useful for people searching for an alternative to only relying on mainstream medicine. If you are interested in health without drugs or alternative healing for looking after your health. Then this is the course, which is designed to educate anyone interested in adding another modality to their existing service or persons interested in alternative healing. In this course we'll go through how to heal with frequency, how to heal long distance, how to make remedies with crystal and plant frequency, how to scan, analyse and treat. This method is non-invasive with no side effects and more importantly it works. Plus, throughout this course you'll get advice from an expert on how you can help your client's with frequency healing. We'll go through functions of the tools been used for frequency healing to heal long distance or face2face
