

RESPIRAR MELHOR, VIVER MELHOR

RMVM – Associação para a Defesa do Ambiente

Tired of Pollution?
Join the Solution!

Discover the Future of Clean Agriculture!

June 5 at 10 AM, Quinta de Pentieiros

Join us for a live demonstration of Biochar production — an innovative, low-smoke solution that transforms agricultural waste into a valuable resource instead of pollution.

See how branches and pruning materials can be converted into carbon-rich biochar using the simple and efficient “Ring of Fire” technique. Biochar helps improve soil health, retain water and nutrients, support plant growth, and store carbon in the ground.

Come experience a practical, sustainable solution that benefits farmers, communities, and the environment!
