

Music Bench Sponsorship

The Park is taking old, broken down, metal instruments and giving them new life! We will be crafting Music Benches for the Park to provide unique seating areas in our 2.2 acre space. We have commissioned local metal sculpture artist Todd Timler to put these benches together, have collected donated metal instruments from the community, and now all we need is you!

A \$1,000 donation creates a new music bench for the Park! For your donation we will put a plaque on the bench with your company name and logo!

We hope you consider having a presence on a unique and functional piece for the Park!
