

70+ YEARS OF MARITIME EXPERIENCE

MARITIMESOLUTIONSLTD

SPECIALIZED BUNKER BROKER SOLUTIONS

ABOUT US

FOUNDED IN AUGUST 2020 AS A SERVICE PROVIDER FOR THE WIDER SHIPPING COMMUNITY WITH PARTNERS LOCATED GLOBALLY.

We provide exclusive Channel Alliances with acclaimed Partners globally and in Strategic Geographical locations. We leverage a service above par excellence and at competitive prices to our esteemed clients.

Our Solutions allow clients to understand their Marine investments including make key decisions.

OUR GLOBAL PRESENCE

We provide a full range of specialized solutions to the Vessels and our esteemed clients from our Head Office based in the UK and partner offices in UAE, Singapore, Gibraltar, Australia, India, Greece and Cyprus.

WHY IS BUNKERING IMPORTANT

SHIP BUNKERING IS AN IMPORTANT AND INEVITABLE OFFSHORE MARINE ACTIVITY. ACCORDING TO A STATISTIC, THE OPERATIONAL EXPENDITURE OF A SHIP WHEN IT COMES TO FUEL BUNKERING IS SOMEWHERE AROUND 50-70% OF THE TOTAL OPERATING EXPENDITURE OF THE SHIP.

OUR AREAS OF STRENGTH

One of our core solutions is Bunker Broking, being placed on the approved panel of some of the leading traders. Please find our areas of strength:

China ports

Singapore

**Korea – Contract bbls and spot

Fujairah

India

ARA

USG

We have credit lines and good support with the majority of suppliers but importantly we shall guide you on which good VLSFO specs to lift and which suppliers to avoid in certain ports. This is thanks to our global quality database (100's of samples entered daily from labs) which spots fuel trends month on month and sends us alerts in risk ports. Recently we have managed to circumvent high TSP blow-ups in the ARA and high metals in the USG as a result.

Please feel free to try us out whenever you next have an inquiry.
